

## DIRECTIONS:

### Vegetables and Annual Flowers

Line bottom and sides of plant holes and seed furrows with 1"-2" of Poppy's Wiggling Wiggler Castings. Set seeds or plants in place and cover with soil (We recommend Poppy's Wiggling Wrigglers Amended Soil). Side dress during growing season at a rate of ½ cup per plant or 1 cup per linear foot in a row once every 2 months.

**Transplant:** Place ½ handful into hole. Add plant and fill hole with Poppy's Wiggling Wrigglers Amended Soil or your favorite soil.

**Established:** Use 10-20 lbs. per 1,000 sq. ft. Sprinkle on soil near plants and water.

### Potted Plants, Window Boxes or Hanging Baskets.

**New:** For potting mix use 1 part Poppy's Wiggling Wrigglers Castings to 4 parts soil.

**Established:** Add 1" of Poppy's Wiggling Wrigglers Castings to top of soil. Mix in taking care not to damage shallow roots – water – repeat every 2-3 months. See Worm Casting Tea if applying as a tea mixture.

### Perennials

Work ½ cup Poppy's Wiggling Wrigglers Castings into the soil above their root zone taking care not to damage shallow roots. Apply in spring, early summer and early fall. See Worm Casting Tea if applying as a tea mixture.

### Roses, Trees, Shrubs and Berries

**New:** Mix 1 part Poppy's Wiggling Wrigglers Castings to 3 parts soil. Surround newly dug hole with mixture.

**Established:** Use 2 lb. per inch of tree root area and water. See below if applying as a tea mixture.

### Lawns

**New:** Apply 20-30 Lbs. per 1000 sq. ft. Work lightly into the topsoil. Mix in grass seed and water thoroughly. **Established:** Distribute 15-20 lbs. per 1,000 sq. ft. as a top dressing. Add 2-3 times a year.

### Worm Casting Tea

Soak and Aerate 1 part Casting to 5-parts water for 12-24 hours. Water as usual within 2 to 24 hours.

4 Gallons Water

6 Cups Castings

3 Tablespoons Molasses

Fill the bucket with water. Add the worm castings and the molasses. Stir to combine. (If you're using a compost tea bag, place the worm castings in the cloth and tie it to secure it shut. Place the bag in the water.) Let the tea steep or aerate for 24 Hours. It will be a dark brown color. Give it another stir. Remove the compost bag if using (place the contents onto the soil or on your compost pile). Pour some of the worm tea into your water can or spray bottle and dilute with water until it is a light brown color - the color of weak tea. Use immediately for best results. The microbes will begin dying off quickly so the sooner you use the compost tea the better while it's most potent.

Makes 4 gallons of worm castings tea.

2 Lb. (0.907 Kg)

### Compost Piles

Spread a thin layer of Poppy's Wiggling Wrigglers Castings between each new layer of material to be composted.

**STORE IN DRY PLACE.** Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rains are expected. Apply this product only to your lawn/garden, and sweep any product that lands on the driveway, sidewalk, or street, back onto your lawn/garden.
