What a breath of fresh air !!!! As a healthcare professional with many years of experience I had grown tired of having to recert ACLS and BLS. Stay Calm and Start CPR changed that ! Ruthie was a great instructor. She hit all the main points and updates for someone who uses these protocols everyday in my practice. She took her time and made sure everyones questions were answers and insured we would pass the test on the first try. The course was excellent. I no longer will dread my next recertification process. The time just flew by and before I knew it the class was over. I HIGHLY recommend this company for the experienced and the first time student.

Registration process was easy and they provided directions and appointment reminders. Instructor was extremely knowledgeable and provided great feedback during hands on learning! I had not done ACLS with a live instructor in years but will definitely go back in the future. Highly recommend Ruthie and Stay Calm and Start CPR!

Ruthie, and the team at Stay Calm are amazing. They make sure that all needs are met. Unlike other CPR programs, Ruthie, and her staff have real life experience. They use that experience plus real life clinical scenarios to make the information more accessible. I will definitely be using their services in the future.
