

# Pacific Lasertec Acquires Diode Laser Concepts

Pacific Lasertec has acquired Diode Laser Concepts Inc. ("DLC"), a designer and manufacturer of custom, turnkey laser modules and systems. Headquartered in Medford, Oregon, DLC's products support critical applications across analytical instrumentation, medical, defense and industrial sectors.

"DLC is a trusted engineering partner to its customers, with a strong track record of delivering complex and innovative solutions for high-performance applications," said Blake Fennell, CEO of Pacific Lasertec. "This partnership expands our product portfolio and strengthens our engineering capabilities, positioning us to deliver enhanced value to our customers."

"We are excited to be welcomed into the Pacific Lasertec family," said Mike Robinson, CEO of DLC, who will continue with the business. "By combining our strengths and leveraging the combined customer base, we are better positioned to develop and manufacture OEM-optimized laser-based systems that meet the needs of demanding applications."

DLC is the first strategic acquisition by Pacific Lasertec, under the sponsorship of Pfingsten Partners, an operationally oriented private equity firm focused on middle market companies.

## *About Pacific Lasertec*

*Pacific Lasertec is a manufacturer of specialty lasers and related power supplies. The company's product supports critical applications across test & measurement, semiconductor metrology, advanced manufacturing and life science sectors. The transaction closed in January 2026.
