

Ayush Research Laboratories Pvt. Ltd.

Leading the future of analytical testing, consulting, and training services across multiple industries. Ayush Research Laboratories delivers world-class solutions with cutting-edge technology and unwavering commitment to excellence.

Excellence in Scientific Testing & Consulting

Industry Leadership

Led by dynamic professionals with extensive experience in testing and consulting services, establishing ourselves as a premier service provider across global markets.

Comprehensive Solutions

One-stop solution for food, pharmaceutical, cosmetic, environmental, herbal, chemical industries and R&D institutions worldwide.

Strategic Location

Strategically situated in Indore, India, with excellent connectivity by rail, air, and road networks to serve clients globally.

Ayush Research Laboratories has established itself as a leading unique service provider, combining skilled manpower with best-in-class infrastructure and technology. We focus on providing optimal solutions across all domains through independent consulting and product development services delivered by our skilled team and onsite experts.

Our commitment extends beyond testing to encompass comprehensive support including time-slot booking systems for instruments, ensuring maximum accessibility and convenience for our diverse clientele spanning academic institutions and R&D facilities globally.

Our Mission & Strategic Objectives

1

Quality Excellence

Provide the highest quality testing, consulting and training services at cost-effective prices while maintaining strict compliance with FDA, NABL, and international regulatory standards.

2

Innovation Leadership

Ideate, innovate, and implement latest technologies, solutions, and strategies that minimize risks and maximize resourcefulness for our customers across all domains.

3

Shared Growth

Drive business objectives through shared growth philosophy, where client success and end-user experience serve as cornerstones of our leadership position in consulting and testing.

"Our business objective is driven by shared growth, where we see the success of clients and end-user experience as key to our leadership position in consulting & testing."

We are committed to providing testing facilities that comply with stringent regulatory standards while delivering innovative solutions that keep our clients ahead of evolving market demands. Through continuous research and development, we ensure our services remain at the forefront of industry advancement.

Comprehensive Service Portfolio

Flexible Scheduling

Date and slot facility for educational institutes, researchers, and R&D facilities, providing convenient access to advanced analytical equipment when needed.

Independent Testing

Comprehensive testing services across food, oil, chemical, fertilizer, pesticides, pharmaceutical, water, herbal, soil, and environmental domains.

Expert Consultancy

Professional consultancy services for product development and validation across multiple instruments and analytical methods.

Industry Training

Specialized training programs for industrial and educational institutes on all instruments according to specific industry requirements.

Export Support

Inspection and sampling services for export industries, with particular expertise in food industry compliance and quality assurance.

Test Management

Complete test management including case management, method development, execution, QA coordination, and time estimation through advanced LIMS systems.

Why Choose Ayush Research?

Robust Process Management

Effective QA services combined with proven test management processes ensuring consistent, reliable results for all client projects.

Expert Experience

QA consulting marked by perfect combination of experience and expertise, with team professionals having rich experience across different verticals and domains.

Flexible Budget Solutions

Strong delivery model specifically designed for small and mid-sized budget customers without compromising on quality or service excellence.

Technology Leadership

Specialty in identification and application of latest tools and technology, ensuring clients benefit from cutting-edge analytical capabilities.

Cultural Adaptability

Flexibility to adopt customer culture, workflow, processes, business ethics, and technology requirements for seamless integration.

Core Values: Integrity, innovation, and excellence motivate all testing activities at Ayush Research Lab. We believe in cooperation, encourage creation, and treasure our ability to offer the best testing solutions at competitive prices.

Leadership Team

Mr. Alok Dubey

Founder & Managing Director

With over 8 years of Quality Control experience in US-FDA approved facilities and 5 years in contract analysis, Mr. Dubey brings exceptional expertise to analytical services. He serves at director level in multiple companies within the same domain and holds ISO 17025 certification as a trainer.

His diverse experience spans marketing, finance, planning, and corporate strategy, providing comprehensive leadership for the organization's growth and development initiatives.

Mrs. Rasmi Dubey

Director

Previously serving as HR Manager at Biomedica Laboratories, Mrs. Dubey brings valuable administrative and human resources expertise to Ayush Research Lab. She specializes in resolving administrative challenges and human resource issues while managing customer relations.

With her M.Sc. honors from Agra University, she handles customer service, administration, HR, and related operational matters, ensuring smooth business operations and client satisfaction.
