

Youth Mid-Size

This class will feature drivers ages 10-15 years old looking to get into the sport of demolition derby. Drivers may have a parent or guardian riding in the passenger seat during the heat.

- Any 1990 and newer 2 wheel drive passenger car
- All Drivers MUST have parent or legal guardian present at the time of registration and must have said parent or guardian present in the pits during the event if a rider is not present.
- All vehicles must be stripped off all plastic, glass, headlights, taillights and anything else that could fall off onto the track during the show.
- All vehicles must have a roof sign and numbers on the doors. Drivers door and passenger door(if a rider is present) MUST have drivers door protection
- A helmet with eye protection, long sleeved shirt or hoodie, long pants and gloves are mandatory in the vehicle during competition
- Air-Bags Must be Removed and Disabled.
- All vehicles must remain stock, ABSOLUTY NO WELDING ANYWHERE. No body shaping or creasing of any kind is allowed. If car is pre-run or has damage from a prior incident please call on what is allowed/isn't allowed.
- Bumpers must remain stock, do not alter the bumper in anyway. Factory bumper shocks must remain in the factory location. You may remove rear bumpers and shocks. There is no welding to be done on bumpers.
- Batteries may be left in stock location and spray foam may be added around battery. You may also move battery to passenger floor or seat. Please make sure battery is not moving.
- If the factory gas tank is in front of axle you may leave it there. If it's behind the axle, you must move it to the rear seat area. If the gas tank is removed, you must use an aftermarket fuel cell or metal tank. No plastic tanks allowed.
- All doors may be wired or chained in 6 places max per seam.
- Trunks, hoods, tailgates, all may be wired or chained in 6 places total. Sheet metal to sheet metal only. Nothing to frame or bumpers. If you remove the trunk or tailgate you lose that wire or chain.
- Drivers door only may have a plate welded to the outside or inside. Passenger door may also have plate welded only if a rider is present. This is for driver safety. A 4-point floating cage and halo is optional but must meet the following criteria. A. Cage may not be bolted to the frame rail of the vehicle in any way. B. May not extend more than 6" beyond rear of driver seat or any farther forward than the dash board area and. C. May not feature a gas tank protector or down bar of any kind. All vehicles must have a drivers door protection of some kind.
- DOT tires only. Stock wheels only. All wheel weights must be removed. Only tubes and air are permitted inside of tires.
- Cars may use headers

- These rules are cut and dry, you should not have to call to ask many questions on this class. If it does not say you can do it then that means YOU CANNOT do it. Quick and easy build.
