

Susan Morales

By Appointment Only

I have been a Stylist for over 45 years, working in the Metroplex for over 38! My philosophy, when it comes to hair, is no question is a dumb question and my job is to provide the answer. I strive to make sure that what you want is what you get and to give you the tools to be able to replicate the look when you get home! Sharing the “tricks of the trade” to make that possible, will always be something that I will attempt to explain before you walk out the door. Open communication between a stylist & client is the most important part of and “hair” service and I like to think that my clients can always reach out to me.
