I have been a hair stylist for over 16 years. I truly love people and hearing their stories!

It's one of the best parts of the job, in addition to seeing people's outlook on life transformed simply by a new hair style or color. I keep up on the latest trends and styles

that are out there, but I'm also an expert when it comes to the traditional styles.

My services include all haircuts and styles for men and women; colors, perms; waxing services (facial) and kid's cuts. I accept cash, checks and credit cards.

I will help you venture out with a new style or simply help you maintain your current one!
