

Fall Bull and Female Sale
THURSDAY, NOVEMBER 11, 2021

COOKE COUNTY FAIRGROUNDS, GAINESVILLE, TEXAS • 12:00 NOON

1901 Justice Center Road, Gainesville, TX 76240

LONE STAR

Howell Ranch Established 1861

*For calves that weigh heavy and grade Prime,
Trust the Lone Star.*

LONE STAR

Friends and Fellow Cattlemen:

We are excited to be hosting our third fall bull and commercial replacement female auction. Our customers with fall calving cows appreciate the opportunity to purchase our bulls to turn out in late November and December.

The Lord teaches us to be thankful in all things. We grew a lot of grass this year and the fall crops are coming up. In the spring, I said the pandemic would hopefully be in the rear view mirror by summer. My next hope is winter.

Here at Lone Star Angus, we consider ourselves fortunate to have long-standing relationships with many customers who show their continued support by buying our bulls yearly. Thank you for your continued support which has put us where we are today! We look forward to seeing you at our 2021 Fall Sale.

In order to best serve our customers, our sale will be on Thursday, November 11, 2021 at Noon. In order to accommodate our customers, we are willing to care for your new bulls at our ranch until you can pick them up by December 15, 2021.

I would like to offer sincere thanks to Nate Martin and Levi Scarborough for having the bulls in excellent condition. It is indeed satisfying to see the continued improvement in phenotype, performance and carcass merit. Retaining ownership of the right type of Angus cattle is becoming increasingly profitable!

If you have any questions about the sale or our ranch program, please do not hesitate to call, 940-367-0064 or stop by at any time. We would love to show you our cattle!

Sincerely,
Margaret Howell & Rodney H Howell

Fall Bull and Female Sale NOVEMBER 11, 2021

COOKE COUNTY FAIRGROUNDS, GAINESVILLE, TEXAS • 12:00 PM
1901 Justice Center Blvd, Gainesville, TX 76240

AUCTIONEER

Matt Sims

ASSOCIATION REPRESENTATIVES

Radale Tiner, Regional Manager, American Angus Association

Greg Dennis, President, Texas Angus Association

Bodey Langford, President Elect, Texas Angus Association

LIVESTOCK PRESS REPRESENTATIVES

Radale Tiner, *Angus Journal*

Phil Stoll, *Weekly Livestock Reporter*

Justin Stout, *The Stock Exchange*

Shawn McCoy, *The Cattleman*

Buyers unable to attend the sale may send their bids to the Regional Manager, Ringmen or Auctioneer.

SALE LOCATION

Cooke County Fairgrounds, 1901 Justice Center Road

The fairgrounds are located on the north side of US Hwy 82, 0.7 miles west of the intersection of I-35 and US Hwy 82. From I-35, Exit 498 toward Wichita Falls. Wheel chair accessible.

ACCOMMODATIONS

La Quinta 940-665-5700

Comfort Suites 940-665-0505

Holiday Inn Express 940-665-5000

AIR TRANSPORTATION

The Dallas-Forth Worth Airport (DFW) is served by all major airlines. Gainesville is located 60 miles north of DFW on I-35.

SCHEDULE OF EVENTS

Please see complete schedule of events on page 2.

VIDEOS OF SALE OFFERING

Videos of the sale offering available online at www.dvauction.com. Videos and sale book also available at www.lonestarangus.com.

HEALTH

Cattle will be accompanied by proper health certificates for immediate interstate shipment. **All cattle have been tested negative for Persistent BVD.**

INSPECTION OF CATTLE

Cattle will be available for inspection beginning Wednesday, November 10 at the sale site. All cattle will carry identity tags corresponding to sale lot numbers in the sale book.

TERMS & CONDITIONS

All cattle are to be settled for on sale day, PRIOR to load out. All cattle sell under the terms and conditions as recommended by the American Angus Association. **NO LOAD OUT UNTIL AFTER THE SALE.**

ANNOUNCEMENTS

A supplemental update sheet will be available sale day with up-to-date information, including updated pregnancy status and calf information. All supplemental information and announcements made from the sale block take precedence over printed matter in this sale book.

LIABILITY

All persons attending the sale and related functions do so at their own risk, legal or otherwise, for their safety or the behavior of the animals. Lone Star Angus and the sale facility assume no liability for loss or damages however so caused.

ANGUSMEDIA™ EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at www.angus.org and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded. References: American Angus Association®, AHIR®, AngusLink™, CAB®, Pathfinder®.

SCHEDULE OF EVENTS

WEDNESDAY, NOVEMBER 10

All day Cattle available for viewing at the sale facility

THURSDAY, NOVEMBER 11

All day Cattle available for viewing at the sale facility

11:00 AM Complimentary lunch served at the sale facility

12:00 PM LONE STAR ANGUS BULL SALE

SALE ORDER

Cattle will sell in sale book order.

SEMEN INTEREST

Lone Star Angus is retaining one-third, revenue sharing, semen interest in all bulls selling, unless otherwise noted.

FREE DELIVERY

Free delivery with a \$6,000 purchase of registered cattle within 300 miles.

BREEDING SOUNDNESS GUARANTEE

Lone Star guarantees the fertility of our bulls for one year from the date of purchase. If a healthy bull fails two fertility exams, a credit for the purchase price minus salvage value will be available at our next sale.

ABOUT THE BULLS

All bulls were born in the spring and fall 2020 and are ready for heavy service.

Bulls can be picked up at the sale or from the ranch by December 15. Board \$3/day/bull from sale day until pickup.

STAR RATINGS

Lone Star Angus has provided a star rating system in this year's book for assistance with your bull buying decisions.

CALVING EASE:

Our star system for calving ease is designed to make purchasing bulls for first calf heifers and mature cows easier. I evaluated the EPDs: CED and BW, the pedigrees, actual birth weights and the physical appearance of the bulls to arrive at a rating.

Calves from 5 Star bulls should be very small and given normal delivery, there is not much chance of problems.

4 Star calving ease bulls are what we are trying to raise. These bulls will work great on first calf heifers and mature cows. We have avoided for generations rough boned AI sires and used sires that have nice little Angus heads. The shape of the calf is almost as important as the weight.

3 Star calving ease bulls could be used on large or crossbred first calf heifers but should be monitored closely.

2 Star calving ease bulls will work great on mature cows. I have never had a customer with a calving problem on mature cows. There is some correlation between higher birth weights and higher weaning weights.

1 Star Bulls. We do not raise bulls that cause calving difficulty in grown cows.

UPDATED EPDS AND VIDEOS

Updated EPD spreadsheet and videos of the bulls available online

www.lonestarangus.com

AMERICAN ANGUS ASSOCIATION GENOMIC ENHANCED EPDS

Courtesy of the American Angus Association

Genomic results are a way to enhance predictability of current selection tools, to achieve more accuracy on EPDs for younger animals, and to characterize genetics for traits where it's difficult to measure the animal's own performance for the trait, such as carcass traits in breeding stock or maternal traits in bulls. With the investment in genomic technology, this means that in addition to the pedigree, performance and progeny information that are used in the calculation and reporting of Angus EPDs, genomic test results have also been incorporated into the EPD.

Genomic-enhanced EPDs (GE-EPDs) are important because they make use of the results from the genomic, or DNA, test in addition to all other sources of information to provide added accuracy and reliability to the animal's EPD. In fact, depending on the trait, GE-EPDs on unproven animals have the same amount of accuracy as if they had already sired 8-20 calves.

In the American Angus Association genetic evaluations, the genomic results are incorporated into the EPDs as a correlated trait. Through AGI research and development, a genetic relationship is calculated between the values obtained from the genomic test results and the phenotypic data at the Association. Typically there are two measures used to report the relationship of a genomic test and phenotype, the genetic correlation and percent of additive genetic variance accounted for by the test. These two measures are related, and if one is known, the other can be calculated. The genetic correlation is the square root of the percent additive genetic variance and, conversely, the percent additive genetic variance is the squared value of the genetic correlation. For example, if the genetic correlation between the genomic result and the phenotypic measure is .60, then the genomic result explains 36% of the additive genetic variance for that particular trait. Simply stated, the more genetic variance a test explains, the more impact it will have on your EPDs and accuracies for that trait. Across all traits, the genetic correlations that have been estimated between the high density genomic tests purchased through AGI and the American Angus Association's phenotypic database effectively ranged from .60 to .70, except for milk and heifer pregnancy.

Genomic results are used as indicator traits in the evaluations to compute EPDs. Genomics do not completely describe the variation in the traits of interest. Breeders sometimes ask if it is no longer necessary to collect weights and measures (e.g., weaning weights, scan data, carcass measures). On the contrary, phenotypic measures collected by Angus breeders continue to be an important part in further development of improved genomic panels and the refinement of this technology over time, not to mention an important component in EPD calculation.

Genomic results are a way to enhance the current selection tools, to achieve more accuracy on predictions for younger animals, and to characterize genetics for traits where it's difficult to measure the phenotype. To learn more about available genomic tests, go to <http://www.angus.org/AGI/default.aspx>.

Save the Date - Annual Spring Sale... March 24, 2022

**VIDEOS OF EACH LOT WILL BE BROADCAST RINGSIDE -

- Really good across-the-board bull to end the sale.
- Sleep-all-night heifer bull - CED I+13.
- Excellent growth with both WW and YW EPDs in the Top 10%.

Lot 63

L. W. and Danita Voth are bringing 20 Fancy Bred Angus Heifers. These reputation Angus heifers are several generations deep in Quality Lone Star Genetics. An excellent, easy calving, CED +12, Lone Star bull was with these heifers starting May 1 for 60 days. They will start calving Mid-February.

These Beautiful Ladies are well developed and sure enough the right kind. They are currently weighing 950 to 1000. A couple have some white in their faces.

Lots 63A, 63B, 63C and 63D will each have 5 head. High Bidder on Lot 63A has the option to take 63B, 63C, and 63D.

Lot 64

Kelly Geurin, Mountain Creek Land & Cattle is offering 15 Super Good Bred Angus Heifers. They will start calving February 15th. A group of these heifers were recently pregnancy tested and the heaviest bred 15 were selected. That should bring a short calving season.

These heifers carry Quality Lone Star Genetics. They are bred to low birth weight Charolais bulls and are weighing most of a 1000 pounds.

Lots 64A, 64High and 64C will each have 5 head. High bidder on Lot 64A has the option to take 64B and 64C.

Lot 65

Jaret Reaves is offering 15 beautiful, long weaned Open Angus Heifers. Jaret has been using our top end bulls for years and the genetic quality in the females is apparent and outstanding.

At present, these heifers have been weaned 60 days and have had two full rounds of shots.

They were born in December and January and would be perfect to put bulls on for winter or spring calves.

Lot 65A, 65B and 65C will each have 5 head. High bidder on Lot 65A has the option to take 65B and 65C.

All the heifers will be at the sale facility Wednesday, November 10 and sale day, November 11.
