

# PURELY PROTECTED<sup>®</sup> LEATHERS

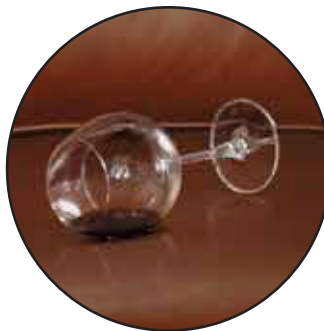

Luxury and performance are a must.

Introducing a new and innovative leather category called Purely Protected<sup>®</sup>. The technology found in Purely Protected<sup>®</sup> leathers reduces the scratching, fading, staining and color variation found in aniline leathers. This collection takes on the aesthetics of highly sought after aniline, wax or oil leathers, with durability similar to our protected or pigmented leathers.

Purely Protected<sup>®</sup> leathers are perfect for the home, hotels, office and restaurant use. No matter the application, you don't have to sacrifice soft and luxurious leather for the sake of performance.

Resists Moisture

Resists Stains
