

## Roach Bait Preparation Sheet

1. Clean home and maintain as neatly as possible for the best results.
2. Clean behind stove and refrigerator for preventative maintenance.
3. Clean Floors and baseboards
4. Clean out under kitchen and bathroom sinks.
5. Clean up any visible roaches and eggs before technician treats home.
6. Keep garbage in closed containers to help eliminate food source.
7. Remove excess piles of newspapers or other clutter for best results.
8. Repair any water leaks as roaches will be drawn to the water.

After Service keep and maintain sanitation to as high a level as possible for best results. Do not leave open food out or allow it in other areas of the home to keep food sources down.

People and pets DO NOT NEED TO LEAVE if baiting for roaches.

If seeing roaches during the day a spray treatment may be the best option
