

# PSE&G-Sponsored On-the-Job Training Program

---

Build your career.  
**Brighten New Jersey's  
future.**  
Earn while you learn.

- Receive paid, hands-on, and job-specific training with a dedicated mentor at an energy efficiency company
- Gain experience, do meaningful work, and build in-demand skills in New Jersey's rapidly growing clean energy industry
- Get access to a multidisciplinary training curriculum that provides clean energy, technical, interpersonal, and life skills

**Clean  
Energy  
Jobs  
Program**

---

The Clean Energy Jobs Program, a collaboration between PSE&G, the New Jersey Department of Labor and Workforce Development, and local partner organizations, provides training and resources to prepare participants for careers in New Jersey's fast-growing energy efficiency sector. PSE&G is the sponsor of the Clean Energy Jobs Program and its On-the-Job Training Program. Training and career placement will only occur through the program's partner suppliers—not with PSE&G.

## Apply now to be a **Weatherization Technician Trainee**

Prior experience in the clean energy industry is *not required*.

**Employer:** A participating company specializing in energy efficiency; jobs and training not with PSE&G

**Location:** Placement for this opportunity will be across the state of New Jersey and assigned after selection and program completion, with every effort made to ensure trainee has no more than a 45-minute commute from home to work location.

**Starting salary:** To be determined

**Duration:** 16 weeks

*Job placement will be determined following successful completion of the 16-week PSE&G-sponsored On-the-Job Training Program.*

**Read on for details.**

# PSE&G-Sponsored On-the-Job Training Program: Weatherization Technician Trainee

.....

Now is an exciting time to join a fast-growing industry and help create a more sustainable New Jersey. This opportunity is specifically designed for individuals who are not yet experienced in the clean energy sector.

## Work You Believe In

### Job and Program Responsibilities

**A day in the life** of a Weatherization Technician Trainee includes helping homeowners achieve improved comfort, indoor air quality, and energy efficiency by:

- Performing ventilation, air sealing, and insulation work for customers, along with other improvement activities, such as light electrical and carpentry upgrades
- Executing work to the highest standards and providing a high level of customer service
- Problem-solving to address issues that may arise during customer appointments, and communicating customer service issues to an immediate supervisor
- Maintaining a flexible schedule to accommodate travel between customer locations and the company warehouse

**“I’m proud to be a part of clean energy in New Jersey. In addition to industry knowledge, the Clean Energy Jobs Program training has provided me with valuable transferable skills.”**

—Gwendolyn Small, Newark; hired by Encore Lighting after completing the PSE&G-sponsored On-the-Job Training Program

### A successful Weatherization Technician Trainee also will be able to demonstrate:

- Excellent communication skills; ability to explain technical information in basic terms
- Motivation to perform quality work and build a career as a technician
- A positive, can-do attitude; professional presentation; teamwork
- Successful completion of all training

### Qualifications

- Must be comfortable working in attics and crawl spaces
- Valid driver’s license and the ability to get to and from the warehouse is required
