DISCOVERING DANTE

RAPHAEL TREMBLAY

I've lived in Rhode Island my whole life and, like many folks here, I'm perfectly content to stay for another 50 years. My wife, however, hails from Lima, Peru, and in many ways, she's the perfect yin to my yang. She's gotten me out of my shell a lot over the years, even taking me on a few trips to Peru where we saw the famous elongated skulls in person.

My background is in SaaS, not as an author, illustrator, researcher, or website developer. But with my wife's help, we managed to buy a house just before the pandemic hit, and it has been a source of great fulfillment. I love being at home, enjoying a rainy day with some fresh herb and the company of my wife, friend, or cat.

I also have a serious passion for video games. As an only child who moved frequently, Pokémon Red on Game Boy was my sanctuary. I was the best Super Smash Bros. player in my neighborhood, and seeing World of Warcraft on my cousin's CRT monitor for the first time was life-changing. Even now, League of Legends' yearly cinematic still gives me nerd chills after the tenth viewing.

Money has never been a primary concern for me. Maybe it's because I've had an extremely easy life, reminiscent of a blend between "Home Improvement" and "The Simpsons." Or maybe it's because I've always received a lot of love and don't have too many trauma wounds to fill up with dollar bills.

The things I cherish most aren't the most expensive: rare books, belongings left from my wife's late father, my mother's Lego "Savers finds," and a beautiful painting my friend Miguel made.

DISCOVERING DANTE

I've always been fascinated by conspiracy theories and alien mysteries. Countless hours have been spent diving into these topics, balancing curiosity with a healthy dose of skepticism.

One night, while searching for UFO footage on YouTube, I stumbled upon a series that instantly grabbed my attention—the “KGB Alien Race Book.” Half-asleep I put my phone under my pillow, and started from “Part 4.” Instantly hooked, I quickly went back to the beginning and binge-watched the entire series. Despite its mix of intriguing claims and questionable visuals, it became my guilty pleasure, offering a thrilling peek into cosmic conspiracies and alien tech.

Over the years, I kept returning to the ARB. Sometimes, the series would disappear and reappear online. When it vanished at one point, I panicked, realizing how much I needed a tangible copy of this captivating lore. Enter stage left—Dante Santori’s “Introduction to the Alien Races Book.”

It turns out the YouTube series material was directly taken from “Introduction to the Alien Races Book,” published by Dante Santori in 2014. Alongside the alien race field guide I had grown to love, Dante also detailed how he and his friend Petro found and transcribed the original Alien Races Book. True or not, it’s pretty tough to put down once you start reading.

However, the PDF he created didn’t quite do the information justice. Considering the resources and technology available in 2014, it’s amazing he brought this to the mainstream at all. But I always felt it deserved better.

This inspired me to create my own version: The Alien Races Book. I carefully curated it to reflect the original’s structure, format, and visuals, hoping it would resonate with both new fans and long-time enthusiasts.

DANTE SANTORI

Dante Santori, a former special forces sergeant from Europe, embarked on an extraordinary journey into the world of extraterrestrial lore. Alongside his friend Petro, he translated a mysterious book from Russian to English, captivating believers in alien life worldwide. This book, titled “Introduction to the Alien Races Book,” is steeped in secrecy and intrigue.

The book is believed to have originated around 1946-47, with continuous updates over the years. It was allegedly handed to government agents for them to contribute their own information. Dante and Petro discovered the book while clearing out old boxes filled with old Russian documents from Petro’s father’s house. Although the book they found appeared to be a modern copy, they also stumbled upon a cover from a 1951 edition, though unfortunately, the contents were missing.

Curious about the book’s origins, they questioned Petro’s father. He revealed that high-ranking Russian officials often whispered about alien encounters, though concrete proof was always elusive. Tragically, Petro later lost his life in a car accident, leaving Dante to complete their translation.

Read Dante's extraordinary accounts and decide for yourself—within his writings lie either the greatest revelations of our age or the most intricate fables. As you turn each page, the line between myth and reality blurs, and the truth, as always, remains yours to uncover.

DISCOVERING THE ARB

In 2004 I became friends with an Ukrainian guy called Petro that I met completely randomly at a bar by the beach... I was on holidays and he was there with some friends having some drinks.

Anyway, we started talking with each other... our friendship started like that... he became a regular at my house where our families would get together. In 2008 he called me and asked me if I wanted to go on a road trip... I said "SURE !"

He had in mind to go to the south of Spain and visit his brother (his brother was there in jail at the time, near Huelva...) and also to visit his father in Portugal (his father was a former diplomat of the Ukraine, years before, and when he retired he decided to move to Portugal and live there...)

And so we went. ...we visited his brother and then went to Portugal to visit his father... When we were at his house he asked us a favor (he is old)... if we could empty boxes from one of the rooms, as he wanted to make it into a bedroom for guests...

We said "ok" and went to the room, expecting to see some old newspapers... Instead we found about 58 boxes full of old documents and books from the time when he was a diplomat... Some papers (documents) were in Russian... some were even from the USSR times.

Petro started reading/translating some of them and we realized that there was a lot of interesting, intriguing and even top-secret

So we asked his father if we could keep the boxes for ourselves... he agreed and we had to rent a van to take everything back to home with us.

But he also said that there were only a handful of people that were in the "know" back then (USSR days)... the leader of the communist party and a couple of advisers, 5 or 6 SMERSH agents (maybe more, up to 12), the commander of the armed forces AND the commanders of the 3 armed forces branches (army, air-force and navy) and maybe a couple of scientists...

He said that most likely there were more people in the know, specially in the military, but he could not confirm that ! (him and his friends did not recognize some of the names mentioned on the book)

People have asked me about some of the illustrations of certain Alien Races on the book... this because some of them were literally copied off movies and/or video games (not all).

Me and Petro asked ourselves the same thing, as we recognized some of them... and we did contact his father in order to get an answer.

He told us that over the years the people that were adding/updating/printing the book had been using alien images from the media when they did not have a real photo or a drawing from the witnesses...

So sometimes they used images from movies and video games that better described the Alien Race in question... this according to the witnesses testimonies (description of their encounters).

However he did say something else... something extremely interesting.

He told us that amongst high-ranking diplomats there has been much "solid" discussion and debate about "a plan" involving certain media (from online to paper to Hollywood to the video game industry) and certain security departments (specially from Japan, China, Canada, USA and Europe) in order to use the "right" (to them) images to describe the appearance of aliens...

All the media involved was (in the end, either directly or because they owned the "mother" companies) owned for no more than 5 people and that this was a concerted effort in order to get people (human-kind) used to the appearance and presence of aliens... amongst us!

He (Petro's father) also told us that some of the alien races images used in video games (and other media) were used in the book PRIOR to the release of the games and/or movies...

Him and some of his friends had knowledge that some of those security departments had actually created some of the images and then "released" them to the proper channels... in order for those images to be known to the general public.

This, obviously, we could not confirm, except for one of the images on the book... the aliens used in the movie "Independence day" were known before the making (not even close) of the movie... by at least 8 years !

Also, some of the photos on the ARB, had been tampered with...And so, there you have it the "story" behind the ALIEN RACES RUSSIAN SECRET BOOK ! At least some of it...I hope you enjoy the book and all the revelations contained in it.

CAPTAIN'S LOST COPY

In the 1980's a copy of (edition) of this book was found on a field in Buryatia (east Siberia). That copy ended up in the hands of a KGB agent with media friends.

After the collapse of the USSR some of the information (and images) in the book were leaked (sold?). Years later the information and some of the images started appearing in tv series and video games. "Mass effect" being the most well known... (this information was handwritten on the book) In 1924, near Yekaterinoslav, Ukraine the 3 daughters of a certain Captain Andriychuk simply vanished. Captain Andriychuk was of Russian descent and very little is known about him, except that he travelled a lot.

A farmer that lived near Captain Andriychuk's house said that he saw the Captain's daughters walking towards the woods maybe 2 hours before sunrise. Intrigued, he followed them at a distance. After walking for 30 mins he described seeing "purple and red lights and a mist" through the trees. He got closer and saw the 3 girls entering what he called "a floating bright windmill-like plane"... he also reported seeing 5 creatures as small as the children but with a "much older face". According to him the "windmill" then flew very slowly "into the stars" until he could not tell them apart.

According to the farmer, he ran to Captain Andriychuk's house to warn him about the event, This photo supposedly shows the farmer's house Upon arriving he knocked on the door but nobody answered... He then entered the house and found the Captain and his wife dead on their bed, their faces "were peaceful", as if they had died during their sleep. All their animals (3 dogs, 1 horse and 2 goats) were dead as well. On the kitchen table there was a letter or note (not signed) with the handwriting that matched Sofiya, one of the daughters. It said: "We are going to the school in the moon, with our friends..."

A FEW MORE THINGS

The ARB has been re-edited (information always being updated in all aspects, from new alien races to new reports and photos or illustrations) at least 12 times.

That we know the first edition was printed in 1946 or early 1947.

Then new editions were printed: 1951 (I have the cover, just the cover, of that one), 1959, 1968, 1971, 1980, all the way to (we believe) 2011.

THE "COUNCIL OF 5"

Very little is known about the five alien races that are part of THE "COUNCIL OF 5",

The races that are part of this Council (previously known as The "Council of 9") have been protecting Earth and the Humans for as long as there are (alien) records of it. Some say that they have been protecting the planet even before Humans existed... for millions of years !

An alien race reported that THE "COUNCIL OF 5" last met on Earth in 1944.

(note of Petro and myself: we found a handwritten note on the ARB dated July-2005 stating that THE "COUNCIL OF 5" is going to meet on Earth during the last 10 days of august of 2013. The same note also mentioned the fact that the presence and arrival of those 5 races could cause cosmic events that can affect Earth's atmosphere. And it also said that Humans would be seeing an increase of alien ships activity during that period)

(continuation of note: the note also states that the meeting of the council is to discuss possible threats to Earth and Humans as well as the fact that so many "new" alien races have been visiting Earth "lately"... by "lately" the note states that that means -to the 5- for the past 500 years).

According to several alien races THE "COUNCIL OF 5" (at the time "Council of 9") has monitored Human evolution since primordial times, since Humans were only a 1 cell marine organism and throughout all natural evolution, when Humans became primate-like creatures and beyond (after the ANUNAKENE, aka Anunnaki, interference...).

According to those same alien races all evolutionary sequences in all planets have a beginning and an end (with the exception of minor details due mostly to radical weather changes).

After the ANUNAKENE, tampered with the DNA of "primates" and created Humans, THE "COUNCIL OF 5" decided to not only monitor but also to protect us, as they realized that one day Humans would be able to Join other alien races in development and enlightenment.

It is generally agreed that the EMETHER is the most important race not only of the Council but also amongst all known races ! They are related to the SOLIPSI RAI, but much older and advanced in all levels. They were one of the Founder-Races of the Council.

They met with US President D. Eisenhower in 3 different occasions...they also met with 2 High-Ranking USSR leaders in 3 different occasions...and they tried (they do not "force" anything upon Humans) to meet with US President R.Nixon but he refused claiming that it would be too dangerous as they could maybe read his mind and find out about delicate national security secrets concerning the relations with the USSR.

AFIM

They come from constellation Lyra. They call themselves "AFIM Spiantsy" because of a war that they fought against a race called "Spiantsy", the "Spiantsy" race had 12 times more members and 35 times more ships and resources than the "AFIM", but the "AFIM" won in the end. So they added the "Spiantsy" name to their own race-name, as a "warning" to other races.

They are smaller than Humans in stature and their skin is covered with blue spots, darker for males and lighter in females. Their planet is called Crimea Ai-Petri.

Technologically they are extremely developed, they can travel from their planet to Earth in 20 earth minutes. They do not need oxygen, they do have an atmosphere but it is composed mainly of an hydrogen-mix environment. They have colonized 10 planets in a non-violent way.

When they are close to humans they can become invisible, but humans when around them will feel a certain amount of unexplained anxiety. Their ships are small and spherical in shape. One of the reasons they visit us is to study what they call "Human Deviation", in order to determine the development of the Human race.

ALLMAHULUK-STRAT-163

They were forced to leave Earth after losing a battle against Reptoids in ancient India (date unknown), which they had been visiting for around 200 years. They have resumed their visits to Earth in 1948.

Technologically this is a very advanced race. Their ships are often invisible (to radar and the Human eye) and they wear some sort of clothing that makes them invisible as well. Supposedly they come from Jupiter or from one of its moons. Last sighting: Portugal, May 2005.

AINANNA

The members of this race are the cause why Humans coined the term "Martians". They come from constellation Gemini. They have had permanent bases on Mars for thousands of years, where they mine some sort of a gold-like material. First recorded visit to Earth: 1235 BC in Japan. Last sighting: Madagascar, 2003.

AIRK

They come from constellation Ophiuchus, near Yed Prior, Considered by other races as peaceful. The purpose of their visits is unknown... they never stay long on Earth and do not interact with Humans or other aliens here.

They mostly use Earth as a "stop" (to quickly gather something they may need) before they leave to their real destination. They are mostly nocturnal. Their ships emit a bright-orange light and are (most of them, not all) octagonal in shape. Last spotted near London (England) in May 2003.

AKART

They come from constellation Sextans. One of their ships crashed outside of Varginha (Brazil) in 1996. 2 of its occupants are under US custody, after having paid billions of dollars to the Brazilian government.

They have the fastest ships of any known alien race. Last sighting: February 2002, near Varginha (Brazil)...again !

ALCOHBATA

Presumably they have over 5000 ships and have colonized over 100 planets on their own. Considered by other aliens as one of the "parasite" races. Abduction of Humans are frequent and ongoing... Purpose of Human abductions: unknown.

They do not like to interact with other alien races. They come from constellation Perseus and are extremely aggressive.

Suspected to have been involved in several airplane crashes, such as flight 007 over the USSR in 1983. The USSR leadership took the blame for that crash... Last seen: September 2001 in Canada.
