REGULAR CLASSES - Judge Johan Andersson

First I want to thank you for inviting me to judge our lovely breed at Woofstock 2019. I must apologize for not writing individual critiques on my winners. That is partly because of a misunderstanding from my side. But also because I was told several times by the AKC-reps I had be on schedule and not use more than 2 minutes per dog. This made me very focused on my judging.

What I am looking for in a Bearded Collie is a strongly made dog, having the correct length to height ratio, a long ribcage with the correct "pear-shape". I want a solid body, a strong bone without giving a heavy impression. A flat, square skull, a strong muzzle, eye colour toning with coat giving the typical soft expression. Smooth ground covering movements

with reach and drive, correct head and tail carriage. Showing the happy Beardie temperament. A coat with texture, not too long, not too much volume, will complete the picture.

On the day **GBCH Highlander Bending The Rules at Risa** was the one who, in my opinion, came closest to my idea of the ideal Bearded Collie. He is a true Beardie without exaggerations. Very well put together and a very sound mover. Top class presentation.

Best opposite was a lovely veteran bitch, **GCH Lärkängen's American Trendy Girl**, shown in excellent condition. After the show, when I read the catalogue and realized who she was, I was not very surprized. I have made both her parents Best of breed several times here in Sweden.

My select dog, **GCH Dreamchaser Follow Your Dreams**, is a very eye catching dog and a super mover. Liked him a lot. Select bitch, **Starlight Dream Mission**, is very feminine, very correct without any exaggerations. Still young and will have a great future. Happy to see she was a daughter of my best opposite. It was a very close race between these dogs, separated by details only.

The overall quality was very good. Especially in the Best of Breed Class and the Veteran Classes. Lots of quality dogs. Most of them had the correct body proportions which is so important in making a Bearded Collie a Bearded Collie and nothing else. Temperament, movements and coats were very good. I did find some light eyes. Maybe not the most important detail in a herding dog. But as it occurs in many countries I think we need to pay some attention to correct eye colour. I also found some dogs with more white markings than the breed standard describes. To sum it up I would say the breed is in very good hands in California!

Junior Dogs, 12-28 Months

1. SEBRING FIREFLIGHT

Thank you all for accepting my decisions in good sportsmanship. As far as I noticed there was a very friendly and relaxed atmosphere around the ring. I was extremely impressed by the wine and cheese party after the show. Many thanks to Sharon Prassa and her committee for a very well run show.

After the show we stayed a week in lovely Northern California. We had superb wine tasting in Napa Valley with Lisa Voss at Sterling Vineyards. Very appreciated. Then we spent a couple of days in beautiful San Francisco. We also made it to Carmel before we had to go home. I will be back some time, for sure!
