

**MALIGNA GAIA: BIOELECTRIC ENTITY PARASITES US. IT IS THE DOMINANT SPECIES ON EARTH.**

**Why is there hatred and wars, why are we selfish and greedy extremes? This information reveals it to**

**“The human brain and nervous system houses a bioelectric entity, which parasitizes it, operating at different internal processing speeds, invading large areas of the brain for its own benefit, reducing the mental potential of the host”.**

It is similar in nature to a biosoftware. Two superimposed operating systems work on the same head, one belongs to the psychological “I” of Homo Sapiens Sapiens and

the other to that of "Evil gaia". This has been going on for 2.7 million years.

The "guest" accompanies us from our early evolution. He is highly intelligent. From our subconscious it programs us. Control the collective unconscious. It influences history and technological progress.

It feeds on violent emotions, especially stress, hatred and wars. Its origin is probably alien, since its nature is organic digital. It is a possible temporary attack by an extraterrestrial civilization from the future, which launched this organic parasite biosoftware into the remote past to interact with our DNA.

His actions are furtive, he avoids being discovered. An advanced yogi managed to detect it and has exposed it.

The first digital edition of the book was published in 2009. 13 years passed and no one read it. More than 13 years were wasted...

NASA and DARPA of the United States have the technology and human resources to face this hostile stealthy presence, they have the essential information to be able to act. It is available until 07/23/2023 to do so.

Then, if nothing is done, measures of planetary scope will be applied from outside and as far as the infection has spread. Higher intervention forces have been activated that no longer admit the situation because man is expanding inside and outside his solar system.

## **GAIA MALIGNA: ENTE BIOELÉCTRICO NOS PARASITA. ES LA ESPECIE DOMINANTE SOBRE LA TIERRA.**

¿Por qué no hemos podido en 40 años detener todavía al calentamiento global?

¿Por qué hay odio y guerras, por qué somos egoístas y codiciosos extremos? Esta información nos lo revela:

**“El cerebro y sistema nervioso humano aloja un ente bioeléctrico, que lo parasita, funcionando a diferente velocidad de procesamiento interno, invadiendo amplias zonas del encéfalo para beneficio propio, reduciendo el potencial mental del anfitrión”.**

Es de naturaleza similar a un biosoftware. Sobre una misma cabeza funcionan dos sistemas operativos superpuestos, uno pertenece al “Yo” psicológico del Homo Sapiens Sapiens y el otro al de la **“Gaia Maligna”**. Esto acontece desde hace 2,7 millones de años.

El **“huésped”** nos acompaña desde nuestra temprana evolución. Es altamente inteligente. Desde nuestro subconsciente nos programa. Controla el inconsciente colectivo. Influye sobre la historia y el progreso tecnológico.

Se alimenta de las emociones violentas, sobre todo del estrés, odio y las guerras. Su origen es probablemente alíen, dado que su naturaleza es digital orgánica. Es un posible ataque temporal de una civilización extraterrestre proveniente del futuro, que lanzó hacia el pasado remoto este biosoftware parásito orgánico para interactuar con nuestro ADN.

Su accionar es furtivo, evita ser descubierto. Un yogui avanzado logró detectarlo y lo ha puesto al descubierto”.

La primera edición digital del libro fue publicada en 2009. Pasaron 13 años y nadie lo leyó. Se desperdiciaron más de 13 años...

La NASA y DARPA de los Estados Unidos cuentan con la tecnología y los recursos humanos para enfrentar esta presencia furtiva hostil, cuentan con la información esencial para poder actuar. Se dispone hasta el 23/07/2023 para hacerlo. Luego, si nada hacen, de afuera se aplicarán medidas de alcance planetario y hasta donde la infección se haya extendido. Se han activado fuerzas de intervención superiores que no admiten ya la situación porque el hombre se está expandiendo por dentro y fuera de su sistema solar.

Architect **Roberto Guillermo Gomes**, CEO founder of Green Interbanks, creator of the initiative. Leader of **2% For The Planet**. Responsible for the sustainable projects area and financial

Gomes is currently studying 4 master's degrees and other courses online, so by the end of 2023 it will add 50 university and tertiary degrees. At the end of 2024, he is scheduled to start his first doctorate in Neuroscience, and then he will do another 3. In the remainder of his life, he plans, God willing, to add 100 degrees to complete his academic and scientific training
