Deep Clean Air with Total Purification

Complete Air Purification

Multi-filtration System

The Multi-Filtration process leaves the air in your home healthy and pure, eliminating 99.9% of bacteria and virus, 99.999% of dusts*, allergens and different types of harmful gases, such as bad odors and smog.

Maintain

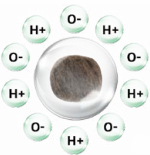

Complete Air Purification

A Space Without Worries

Ionizer

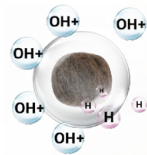

Ion clusters are dispersed throughout the entire room, enveloping harmful substances to minimize the presence of viruses, bacteria, and allergens.

1.

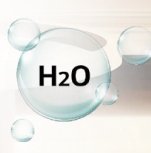

Ions produced bind to harmful substances like bacteria and viruses.

2.

OH radicals destroy the cell membrane to eliminate bacteria.

3.

OH radicals are converted into water (H₂O).

Tested & Certified

Certified by BAF

BAF has certified that the filter is coated to remove harmful and allergens such as house dust mites, fungi, and mold floating in the air.

fiti

Tested by FITI

This product has been tested by FITI and has shown to be 99.9% effective in killing bacteria, including Staphylococcus aureus, Klebsiella pneumoniae, and Escherichia coli.

KCL

Tested by KCL

This product has been tested by KCL and is 99.9% effective against viruses, including human coronaviruses. It also removes 99.999% of tiny 0.01µm micro dust particles in just 15.1 minutes when using Turbo mode.

Tested by TÜV

This product was tested by TÜV and the test results showed that it generates over 10 million ions (both negative and positive) within a 100mm range.

Fits Anywhere

Compact & Mighty

Covers More Space

Compact in Size

The compact design fits anywhere and keeps the air clean even in large spaces.

Great area coverage

Large application area of 62 sqm room coverage, 13% larger compared to bigger size conventional model (55 sqm).

Purify Air

All Around You

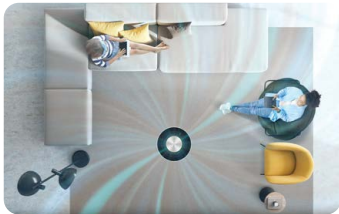

360° Purification

360° Purification

LG PuriCare™ purifies the air 360° around you, in every direction, no matter where you place it.

360° Cylindrical Body

The circular shape of LG PuriCare™'s filter allows it to suction air at 360 degrees, so more air gets filtered throughout the room, no matter where the unit is placed.

360° Filter

The unique circular design helps absorb pollutants from every direction, leaving no blind spots.

Attentive & Intelligent

Intelligent & Caring

Bring Air Quality to Light

The smart LED panel instantly shows the room's air quality using color-coded and numerical ratings. It analyzes contaminants and odors with a PM1.0 sensor, providing real-time monitoring.

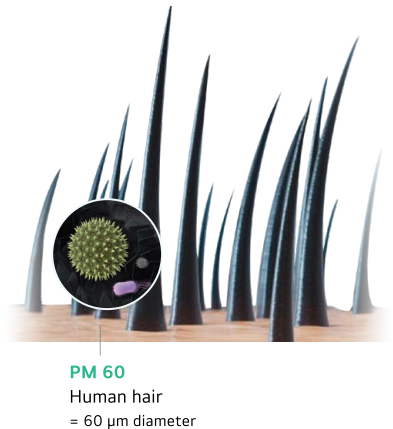

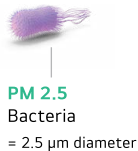

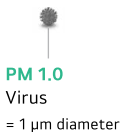

Polluted

Clean

Extra Sensitive for Extra Tiny Particles

The PM 1.0 Sensor detects contaminants that are undetectable by the human eye.

Take Control of The Air You Breathe

LG ThinQ

Use the LG ThinQ App to turn on the LG PuriCare™ 360° Air Purifier remotely, check on the filter usage and indoor air quality, so you can enjoy the cleaner air with your family—even on dusty days.

What can you do with LG ThinQ?

Check Filter Usage

Check Air Quality Status

Check Pollutant Detection Records

Adjust Air Purifier Settings
