

Reflections water light stone:
vision translated into luxurious
exterior spaces.

Larry Carnes enters into a designing partnership with each client. Personal attention is given to insure the design of a unique space preserving the integrity of the natural environment.

"Larry Carnes knows more about water features than anyone I have ever met. His drive to continually educate himself on best practices is a benefit to his customers."

Quinten Bull, L.A., Land Shapers, Inc.

Larry Carnes is the president of Reflections water light stone in West Dundee, Illinois. Larry began his career as a student of art and developed an interest in landscaping. He worked for several companies, gaining knowledge in tree care, patio design and installation, and landscape architecture. He renders concepts for his clients, which are pieces of art as much as they are working designs. After assisting a pond builder in creating a unique in-ground pond/pool for his family, Larry's landscaping interest turned to water features. Larry has studied with Anthony Archer Wills and David Duensing, learning to design and create natural looking ponds and water features.

Reflections water light stone focuses on high-end residential and commercial projects, with naturalistic watershaping.

"Larry Carnes demonstrates a keen understanding of the detail necessary to create credible natural spaces that feature water. The profession needs people with his skill and passion."

*Eric Herman, Editor
WaterShapes Magazine*

"Larry has great knowledge when it comes to the actual workings of a waterscape. His education and experience make him an expert in design, performance and function. Waterscapes are Larry's passion and his creations are nothing short of amazing!"

*Philip T. Schleifer, L.A., Owner
Advantage 1, Inc.*
