

## **Berkshire Aviation Medicals – Chaperone Policy**

In accordance with UK General Medical Council (GMC) good medical practice and professional standards<sup>1</sup>, I am happy to arrange a chaperone for any pilot who wishes to have one present during their medical examination. There is no additional fee charged for this service.

The chaperone will be a healthcare practitioner who has undertaken specific chaperone training.

If you wish to have a chaperone present please email me:

[contact@berkshireaviationmedicals.co.uk](mailto:contact@berkshireaviationmedicals.co.uk)

Please **do not** use the online booking system, as arranging the chaperone will require checking their availability out-of-hours and coordinating with your availability.
