

None OF THIS IS CAKE

Glass Pet Portrait Pricing and Information

First- WOW! I am SO excited to create your (or the gift receiver's) pet in glass! Here is what I will need to complete your portrait:

- At least 1 **good** photo of the animal(s) to be created in glass. *This is the most important as the pattern will be drawn directly from the photo*
- If you would like any additional details added to your piece (flowers, lettering, etc), please let me know so I can figure that into the design sketch.
- What size and style would you like your finished piece to be? I do not recommend pieces smaller than 8"x8" as fine details will be very difficult to create.
- Note that some glass is opaque, and some glass is translucent. Take note of where you would like your piece to hang- on a wall or in a window and be sure to let me know! This will help me decide which glass will look best for your pet and whether or not light can be seen through the piece. See the example on the next page for reference.
- If it is picked up or delivered locally, your order will come wrapped in bubble wrap and a reusable bag. If it is shipped, it will come wrapped in bubble wrap in a box shipped via USPS with insurance to cover the piece in full.
- The current turnaround time is about 4 weeks (per portrait). Please be advised that this does NOT include shipping time (if your order requires shipping)
- Full payment is required upon placing your order. Your order is **NOT** confirmed until payment has been made. Please be advised that the quoted prices are before tax and do not include shipping.
- If your order is a gift, please let me know when I can post a photo of it on social media. If you **DO NOT** want me to post a photo of the finished work, please let me know in advance.

Additional Information about the materials used to create your portrait:

All None of This is Cake pet portraits are created with a combination of glass paint, fused glass, and stained glass. Fine details made from paint or glass are kiln fired and cannot be scratched or rubbed off, creating a lasting portrait of your loved one. Please note that glass can vary in color and texture, and I will do my best to match your pet as close as possible!

If you would like to be able to add your pets ID tag to the piece, let me know so I can add a jump ring to hang it from.

Pet Portraits will come on jack chain. Available chain colors include Silver, Black, and Copper.

Pet Portraits start at \$300 and go up depending on glass color/type, level of detail, and size.
