

## Education News. All that are of great importance

Posted by S. Vishnu Sharma [on January 7, 2021](#)

Education news is about the incidents related to field of education that are worth noting.

Most worth noting education news is Union Education Minister Ramesh Pokhriyal will announce the dates for JEE Advanced 2021 and eligibility criteria for admission into IITs on 7 January by 6 pm.

Sources keenly following education news in India say that announcement of dates for JEE Advanced 2021 will put to rest all speculations.

### Education news: All that are of great importance

The session will likely clear all the doubts in connection with IIT admission procedure for this year.

It is to note that JEE Advanced is conducted to provide admissions into IITs (Indian Institutes of Technology).

Students have to write JEE Mains and have to stand in the top 2.5 lakh ranks to be eligible of JEE Advanced.

Experts keeping a tab on education news remind that JEE Advanced aspirants have been putting forth some demands.

One of them being reduction in syllabus for JEE Advanced. Last year witnessed lot of disturbance on the academic front.

Experts tracking the education news remind how various examinations including state board exams for 10th and 12th standards had to be postponed.

The wish is that academic arena should not witness such hinderances this year, so that students do not face complications either with regards to their career or higher learning.

### **Making students employable**

Completion of formal education alone is not enough to get jobs. What makes students turn ideal job seekers? Having skills that industry requires.

Sources following education news say a professor of a well-known educational institution had made videos on YouTube which explains how students can develop skills and enhance their employability.

Then why only few management graduates turn employees. Lack of skills the

are of 20 to minute duration.

The channel is named 'rkvarsity' and has over 252 videos.

Students willing to gain skills for enhancing employability can get into YouTube and simply type 'rkvarsity' and press enter to watch the videos, say sources tracking education news.

Interview success mantra, How to Become a Personal Brand, Security Market Line (SML) are among the topics on which students can find videos.

### **Bridge course for 10th class students**

Another worth education news is with regards to 10th class students.

Mumbai-based edtech company LEAD School has introduced a bridge course for students entering Class 10 in 2021.

COVID-19 situation has proved a hinderance to the regular learning, lot of gaps are seen in the learning process, says education news trackers.

To ensure learning never stops due to issues like COVID-19 situation, Mumbai based company has come up with the bridge course, say sources following education news and developments.

LEAD School Co-founder and CEO Sumeet Mehta said class 10th results are important because they determine college admissions.

Class 9th students this year have experienced massive learning losses due to school lockdowns.

The Bridge Course will cover these gaps and help students learn Class 10th content with confidence and in continuity from Class 9th.

This will help them get conceptual clarity and achieve good scores in Class 10th board exams.

According to sources tracking education news, the bridge course will be taught in a hybrid format.

The education news sources said hybrid format is a mix of online and offline platforms.

The course is designed to provide a thorough recap of core concepts from previous grades with ample practice through a simple, easy-to-execute curriculum that includes videos, worksheets, quizzes and group activities, say sources tracking education news.
