AFTER 2 SESSIONS

"The *brown spots on my face* have been driving me crazy for years. Every day I would spend nearly an hour *trying to cover them with expensive makeup*. After 3 treatments with Ultra, *the spots have nearly disappeared!* The amount of time I got back in addition to *the money I'm saving on makeup* is substantial and I couldn't be happier with the results!"

PATIENT J.C.

RESULTS MAY VARY.

Questions

Is there any downtime?

You will experience mild redness following your Lutronic Ultra™ treatment and you will be able to resume normal activities immediately. Makeup may be applied based upon direction from your treatment provider. In most cases, full healing may take 5 to 7 days.

How does it feel?

Discomfort during Ultra treatments is variable. Most patients describe the sensation as "mild to moderate" discomfort and can tolerate the treatment without any topical anesthetic. Your provider may elect to apply a topical numbing cream to minimize discomfort.

How long does the treatment take?

Treatments range from 5 to 20 minutes depending upon the area being treated. Some Ultra treatments are so quick that patients refer to it as a Lunchtime Facial!

How many treatments will I need?

Depending upon your expectations, you may see results after a single treatment while other skin conditions could require several visits. Discuss your expectations with your provider.

Is Ultra safe for all skin types?

Yes! Anyone can benefit from Ultra's cutting-edge technology.

Clear, beautiful skin
for all skin types, all year round

LUTRONIC
ULTRA™

what is ULTRA

Lutronic Ultra™ is a low-downtime laser that resurfaces the skin, giving it a brighter tone and improved texture. Treatments can be customized for your particular needs and schedule.

LUTRONIC
ULTRA™

Ultra can be used anywhere on the body.
Contact your practitioner to find the right treatment for you.

*"I spent so much time in the sun when I was younger, which caused patchy discoloration on my face and decollete. **Only 2 treatments** with Ultra has turned back the hands of time, **reversing sun damage** and revealing a smooth, even-toned complexion that I didn't think was possible. It has **improved my self-esteem** so much, I can't wait for my next treatment!"*

PATIENT L.C.

{ WHAT TO EXPECT FROM LUTRONIC ULTRA™ }

- Your provider may apply numbing cream prior to your treatment.
- Patients describe the Ultra sensation as warm, and tingling, which may vary. The treatment time may range from 5-20 minutes or longer.
- Immediately following the treatment, you will notice some redness which will lessen over the next day or so.
- The following 5-6 days, your skin will have a dry, sand-paper like texture. This is normal and will resolve as your skin exfoliates, revealing fresher, clearer skin.

benefits of ULTRA

Lutronic Ultra can be used on the Face, Neck or Chest (decolette).

Ultra can treat mild to moderate:

AGE SPOTS

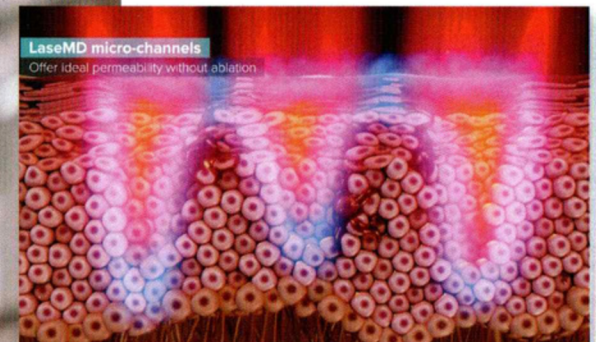

FRECKLES

SUN SPOTS

PIGMENTED LESIONS

SUN DAMAGE

ACTINIC KERATOSIS
(PRE-CANCEROUS LESIONS)

The Ultra creates tiny thermal zones in the skin prompting the body to quickly generate new tissue.
