Version 02/22

Eagle Run Trails

- Fee Site for Access
- Fishing Access
- Restrooms
- Boat Launch

Multi-Season Trail System along the banks of the AuSable River, you will find the Eagle Run Trails. This 4.2-mile loop, maintained by dedicated volunteers, is a tranquil spot for hiking, fat biking, snowshoeing, and cross-country skiing with scenic views in a beautiful natural setting.

RECOMMENDED AuSable River Trips

Top Floats along the AuSable River: We asked the experts to help us pinpoint the best launch spots for planning paddling trips of various lengths. No matter the scale of your adventure, the 94 miles of AuSable River can provide the perfect destination if you don't have your own watercraft, let one of our area outfitters provide the gear.

Short Trip-Whirlpool to the Lake

Half Day: 2-3 hours
 6 river miles

Inside Notes/Tips: This 6-mile float should take about 2-3 hours without any stops paddling. Just the perfect length for a relaxing float. Area outfitters provide you with any paddling gear needed, drop you off at Whirlpool, allow you to do as long as the day, head down the river. If you want to add on some time, float at #13, Lower Foote Dam and you will still add about an hour or less, still be close to town, and won't need to portage.

Full Day- Foote Dam Pond Paddle

Full Day: 5-7 hours
 18.5 river miles

Inside Notes/Tips: Making your way from Lower Cooke Dam through the Foote Dam Pond to Lake Huron is an 18.5-mile paddle that should take approximately 7 hours. The portage at Foote Dam is also a great launching point for lunch before finishing the last leg of your journey.

Visit a local rental tery to launch a custom day trip for you and your group along the AuSable River.

Full Day Trip or Overnight on the middle AuSable

Full Day: 5-6.5 hours
 15.0 river miles

Inside Notes/Tips: This 15-mile river float should take about 5-6.5 hours, depending on how many you paddle. This segment moving past the lower AuSable River portions that take you across the waters of the Dam Traps. The stretch is very scenic and you will encounter plenty of wildlife along the way. If you want to extend to an overnight trip, you can launch a little bit higher towards Mio and pull out to the right bridge, this is a perfect trip for families. There are primitive campsites all along the river, but some more established USFS sites exist.

Quick Overnight Trip

Quick Overnight Trip
 18.0 river miles

Float on the upper AuSable

Half Day: 2.5-4 hours
 8.0-13 river miles

Inside Notes/Tips: Great trips on the upper AuSable from the convenience of launching in Disentment Camping. The quick trip takes you to Burton's Landing, and the longer trip to Seward's Landing.

You could also extend your trip to a full day by making your way down to Wabigoon Landing or Cannon's Falls, but you may want to opt for an overnight as this will be a full 8+ hours on the river.

Highbanks Trail Area

- Fee Site for Access
- Fishing Access
- Restrooms
- Boat Launch
- Scenic Overlook

A 7-mile multi-use trail. The year-round hiking trail (non-groomed winter backcountry skiing and snowshoeing) is set along a bluff of the AuSable River and provides stunning panoramic views of the AuSable and Cooke Dam Pond. The water trail between Pine Acres and Cooke Dam is also popular with paddlers and boaters.

Key Trailhead Access Areas
 Large Springs Interpretive Site
 Cannon's Memorial
 Lumberman's Monument & Visitors Ctr.

Large Springs Interpretive Site
 Large Springs Interpretive Site is larger than 1 mile long, 1/2 mile wide and back trail is partially closed for all members of the family, viewing decks and a boardwalk through the natural setting, making this a popular attraction in every season of the year.

Cannon's Memorial
 An impressive feature of the Highbanks Trail is the Cannon's Memorial, honoring those who paddled the Young water of the AuSable. Erected in 1968 by former members of the Montquimbouche Skiing Association, the monument stands as a scenic overlook above the AuSable River.

Lumberman's Monument
 Also found along the Highbanks Trail is the Lumberman's Monument. This 10-foot tall granite monument was dedicated to the memory of the men who worked in logging industry in 1932. If you aren't up for a hike, it is also accessible from the Visitor Center at 9407 Monument Road.

Sid Town Parking
 The western end of the Highbanks Trail is Sid Town Parking. Here you will find a trail head that provides access for a west bound hike of the 7-mile trail.

The Wildcat

Visit Oscoda.com for map & more info
 In 2018, the Iosco Bikes and Trails Group envisioned a single-track mountain bike trail that would provide an expedition through the Huron National Forest. Following the contour of the AuSable River, 44 miles of trails are planned for development between Old Orchard Campground and Cooke Dam Road. The Wildcat features sections full of exciting rollers and challenging climbs with rewarding views. **Access the trailhead at the Foote Site Overlook off River Road** to experience the beginning phase of this exciting trail. The trail is open year-round, and when the snow flies it will be groomed for fat biking.
