REVOLUTIONARY WAYS TO ADDRESS FOOD INSECURITY AT BOSTON MEDICAL CENTER

Join us on this interactive field trip to Boston's greenest hospital, where we will take a guided tour of BMC's 2,400 square foot rooftop farm while learning how this unique program helps ensure patients, their families, and staff have access to nutritious food.

With spectacular views high above Boston, you will get to meet a farmer, ask questions, and learn best practices to fight food insecurity within your own organization. Participants will also visit BMC's Food Pantry and Teaching Kitchen. You will hear from staff on the front lines of these three revolutionary food programs about how they work together to help the community stay healthy in an urban, on-the-go environment.

Note: Transportation to and from Boston Medical Center and Westin Copley Hotel is provided.

HEALTHCARE FOR TRANS & GENDER DIVERSE YOUTH AT FENWAY HEALTH

Since its founding in 1971, Fenway Health has revolutionized health care for the LGBTQIA+ community and set the standard for equity and accessibility. One of their fastest growing patient populations is transgender and gender diverse (TGD) people, including TGD youth.

Come along for a visit to Fenway Health and learn how they are meeting the needs of these young people in the face of increasingly politicized attacks on trans youth and the people who care for them. Following a conversation with staff from the Trans Health Program, there will be an opportunity for networking with others who are interested in LGBTQIA+ health care.

Note: Transportation to and from Fenway Health and Westin Copley Hotel is provided.

LOCATION:

Fenway Health Auditorium
1340 Boylston Street • 10th Floor • Boston

WHEN:
