

THANK YOU

WE WANT TO TAKE A MOMENT and thank our community as we face the coronavirus together. Your outpouring of support continues to lift the spirits of the 3,000+ colleagues and physicians here at Northern Arizona Healthcare.

As medical professionals, we understand our duty is to answer the call in times of need. But your kind words, gestures, and donations have made it clear how much that work is appreciated. You have been a constant reminder of why we choose this job, and we are determined to always be here for you.

Most of you are making sacrifices and staying at home. Your continued efforts to practice social distancing and proper hygiene are making a difference. Together, each of us is reducing the spread of the virus and helping to flatten the curve.

Personally, we are also humbled and honored to be a part of this team at Northern Arizona Healthcare. We cannot say thank you enough to all the individuals that work here each day, caring for our community.

Our hospitals have been in this region for more than 80 years, providing care when it was needed most. We are proud to be here today, alongside you, helping to meet this challenge.
