- 8. Additional Fees** - The Renter must specify all special requirements at the initial request for services. Any new request(s) made after Renter is quoted may or may not be entertained on the day of rental. An additional fee may be charged if the new request is accepted. Gill Tech Services will set up or install the rented equipment on the day of event, however, if the Renter require the setup or install to be on the day before the event, an additional fee would be charged. - 9. Dancing on the Clouds Effect:** The dancing on the clouds effect is mainly dependent on dry ice which we purchase from our supplier. The dry ice is ordered two (2) days prior to rental date and received from our supplier one (1) day before the rental date, as the dry ice lasts for only twenty-four (24) hours (as advised by our supplier). Our supplier's policy states that all dry ice orders should be made the day before pickup. With this information stated, we cannot guarantee the delivery of the dancing on the clouds effect if our supplier failed to supply the ice due to any disruptions on their end. If this do occur, the client will receive full re-payment of all monies received for fog machine rental. Some of the requirements for this type of rental is out of our control. Also, we can offer the rental of a liquid fog machine if we cannot deliver the dancing on the clouds effect due to the above mentioned circumstances. appropriate preparation(s) for the use of the rented liquid fog machine. These fog machines are very sensitive and should not be used on overloaded electrical circuits or on circuits that cannot handle the load of equipment. This is to ensure that the circuit is not overloaded and to ensure that other equipment would not blow the fuse in our fog machine.
