Cyber Insurance for Law Firms

Businesses across every industry sector are vulnerable to cyber risks, and law firms are no exception to that rule. From company proprietary information and client details to employee personal information and other valuable PII, having in place a cyber liability policy helps to protect your firm, employees, and clients against cyber risks.

Mind the Coverage Gap

Traditional insurance policies have significant gaps in coverage for digital exposures and are often issued with broad exclusions. However, RPS's Cyber Liability coverage is available in first and third party options. Many policies are flexible and can be tailored to fit customers' needs.

Available coverages include Privacy Liability, Professional Liability, Network Security Liability, Media/Website Liability, Notification Expense, Regulatory Proceedings, Brand Protection/PR, Business Interruption, Damage to Systems, Electronic Theft, and Cyber Extortion.
