MassMutual Group Whole Life Insurance can be an important benefit for employees who may want the guarantee of lifetime financial protection, without term limits.

Group whole life insurance — What is it?

It can help employees prepare for the unexpected by providing a generally income tax free death benefit, along with coverage that builds cash value. MassMutual Group Whole Life Insurance is permanent coverage that can last a lifetime vs. term coverage that may last only as long as their employment tenure, for a set period of time, or comes with costly conversion options. These features can make it an attractive benefit for employees.

How can it benefit your employees?

Whole life insurance allows employees to access the guaranteed cash value to help meet a variety of financial goals, such as paying for college, supplementing their retirement income, or obtaining cash for emergencies.² But there's more!

Portable, lifelong protection

MassMutual Group Whole Life Insurance coverage may be the perfect complement to a group term life insurance plan. Employees can continue to pay the premiums to keep their life insurance coverage, and access cash values² — even if they leave the company.

Additionally, if they leave the company and take their certificate with them, they can change their dividend option and choose to have their dividend payments reduce their premiums.

Built-in guarantees

- Guaranteed death benefit
- Guaranteed cash value
- Guaranteed level premium

Tax advantages

Whole life insurance offers certain, valuable tax advantages, including:

- Generally, income tax-free death benefit
- Tax-deferred cash-value growth

² Access to cash values through borrowing or partial surrenders will reduce the policy's cash value and death benefit, increase the chance the policy will lapse, and may result in a tax liability if the policy terminates before the death of the insured.

A simple application and underwriting process

Applying for the coverage is easy, and can be done online or via a paper application. Employees just answer a couple questions to determine their eligibility. No medical exams are required.

Coverage for spouse and dependents

Another benefit for employees is the option to purchase additional coverage for their spouse and each dependent child and grandchild.

Dividend eligible

MassMutual Group Whole Life Insurance is participating and certificate owners are eligible to receive dividends each year, beginning on the certificate's second anniversary. Options on how employees receive dividends include the ability to: increase their amount of life insurance and the cash value, get the dividends in cash, or continue to accumulate the dividends. Although they are not guaranteed, MassMutual has paid dividends to eligible participating policy/certificate owners since the 1860s.

When your company offers benefits that can help employees achieve financial readiness, they notice. Beyond appreciating the convenience, with MassMutual Group Whole Life Insurance, your employees can feel confident that you're providing a benefit worth considering.

Employees value life insurance

Consumer research³ shows that American workers understand the importance of life insurance, and many may want to apply for new coverage or supplement the coverage they have currently. Here are the facts:

52% of American adults own some type of life insurance.

41% of Americans both insured and uninsured — say they don't have sufficient life insurance coverage.

Whole life insurance does more than pay out a death benefit.
It can also build cash value to help employees meet a variety of
financial goals during their lifetime.

* Except in Washington and North Carolina, the acceleration of the death benefit is intended to receive favorable tax treatment under §101(g) of the Internal Revenue Code. Accessing other similar benefits may cause the per diem limit to be exceeded. The insured must be chronically ill or terminally ill, as defined in 26 USC 7702B. Certificate owners should seek advice from a tax advisor prior to requesting a benefit payment. Receipt of accelerated death benefits may be taxable. For group policies issued in Washington or North Carolina, the Chronic Care Benefit defines a chronic illness in accordance with state insurance requirements, and may be taxable, as the state prescribed definition differs from the federal tax law definition.

Accelerating the payment of your death benefit may affect your eligibility for public assistance programs, including MEDICAID and SUPPLEMENTAL SECURITY INCOME ("SSI"). Contact the Medicaid Unit of the local Department of Public Welfare and the Social Security Administration Office for more information.

An acceleration of the death benefit will reduce the certificate's death benefit, any cash value and any loan values. The certificate's premium payments will be based on the reduced amount of insurance at the current rate. There is no premium required for either the chronic care or terminal illness benefits, however, there is a fee if the chronic care benefit provision is exercised. The fee for the Chronic Care Benefit is a present value adjustment shown as a percentage of the Eligible Amount for the Chronic Care Benefit. The percentage depends on the Insured's age at the time the benefit is exercised: 18% for ages 45 and above; 27% for ages 44-35; 36% for under age 35. In the situs states of Kansas, Minnesota, North Carolina and Washington the term "fee" is replaced with "Actuarial Discount." For Montana, "fee" is replaced with "Reduction."

Please carefully read the accelerated death benefit disclosure provided at application. Restrictions and limitations will apply.

The products and/or certain features may not be available in all states. State variations will apply. **This material is not for use in California. The Chronic Care Benefit is not available in Massachusetts.**
