

CERT Radio Communications – RADIOS!

RADIO - Midland X-TraTalk Radios, Model: LXT630PA (pictured). The newest model XT630VP3.

Important to know:

- ✓ Gordon tested! Gordon and Suzy donated these same models to our CERT program.
- ✓ Full "FRS Class" power allowed by the FCC - Many are not.
- ✓ True on/off "click" switch instead of a push button on. The true on/off "click" switch does not drain the batteries. I just turned on my radio for the first time in 8 months and it is at full charge - still.
- ✓ This radio can work with the Rechargeable batteries included, or (3) AAA Batteries if no charger is available.
- ✓ It allows (optional) types of ear/microphones.
- ✓ It IS NOT submersible, but has a degree of water resistance.

Links: Yellow and Black Radios. Hint - Yellow is visible if dropped or left somewhere!
