01 Hook & Loop Fasteners

Hook and loop fasteners, commonly known by the brand name Velcro, are versatile and widely used fastening systems that have revolutionised the way we secure and fasten objects. GBS Hook & Loop Fasteners excel in versatility and durability. With strong grip and easy reusability, they're widely used in textiles, footwear, sports equipment, automotive, aerospace, defence and various industries. Technical parameters include resilience and long-lasting adhesion, making them a popular choice for practical and efficient fastening solutions.

Material-Poly Nylon & 100% Nylon

Available in wide variety of colours

Widths-20mm/25mm/32 mm/38 mm/50 mm/ 75 mm/100 mm

02 Back to Back Hook & Loop Fasteners

Back-to-back hook and loop fasteners, also known as double-sided hook and loop fasteners, are a versatile and efficient solution for securing and fastening objects.

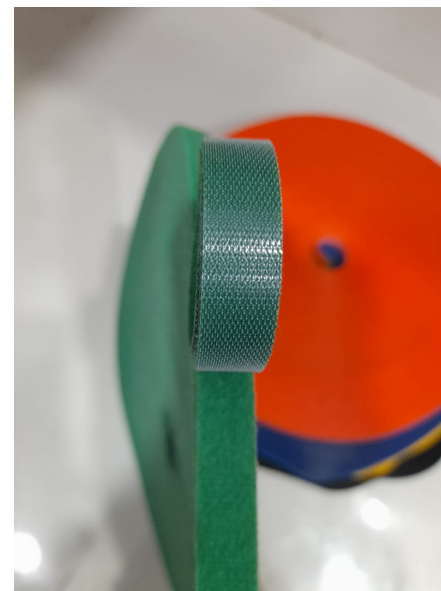

One of the key advantages of GBS back-to-back hook loop fasteners is their strength and reliability. The hooks and loops interlock tightly, creating a secure bond that can withstand considerable tension and shear forces. This makes them suitable for various load-bearing applications, such as securing cables, organising tools, mounting objects, or even fastening heavy-duty equipment.

Available in different sizes ranging from 10 mm to 110 mm

Colours Black, White, Red, Blue, Green, Orange, Grey, Yellow

Material: Nylon and Poly-Nylon

CPSIA, REACH ; SGS test certificate

03 Neoprene

The USP (Unique Selling Proposition) of GBS neoprene lies in its Glued and Blind Stitched construction, providing enhanced durability and minimizing water entry. Neoprene quality is crucial, and GBS ensures a strong, flexible material that offers excellent insulation for various Industry applications.

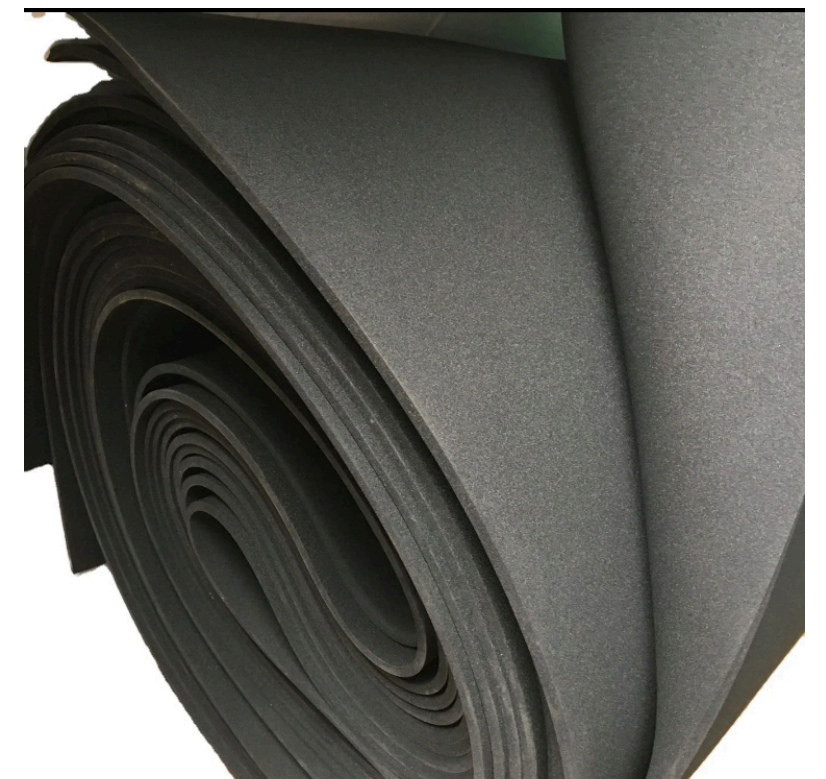

Applications:

1. Wetsuits and Drysuits
2. Industrial Belts
3. Gaskets and Seals
4. Footwear
5. Electrical Insulation
6. Sports Equipment
7. Automotive
8. Orthopaedic and Medical
9. Saddlery products

Custom colours

Thickness-1.5 mm to 10 mm

Technical-CPSIA & REACH

The GBS Inject Hook Velcro is valued for its versatility, finding applications in various industries such as apparel, footwear, and accessories where a dependable fastening solution is essential.

- High quality , shine and ultra thin inject hook with very high fastening strength.
- Wear resistant and durable

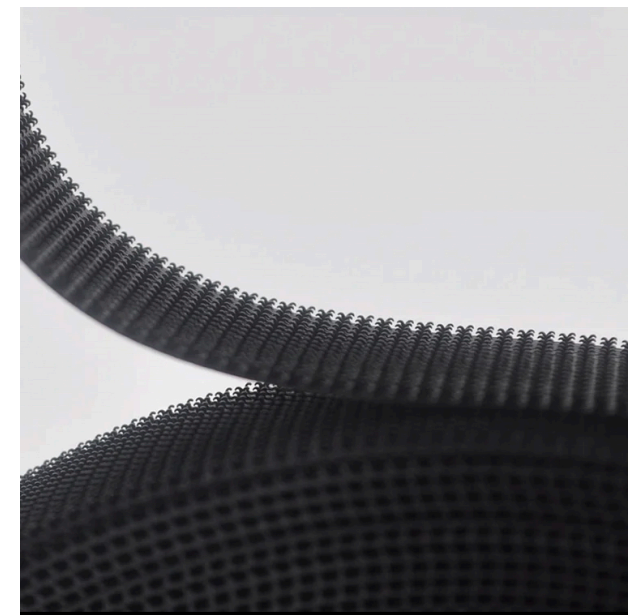

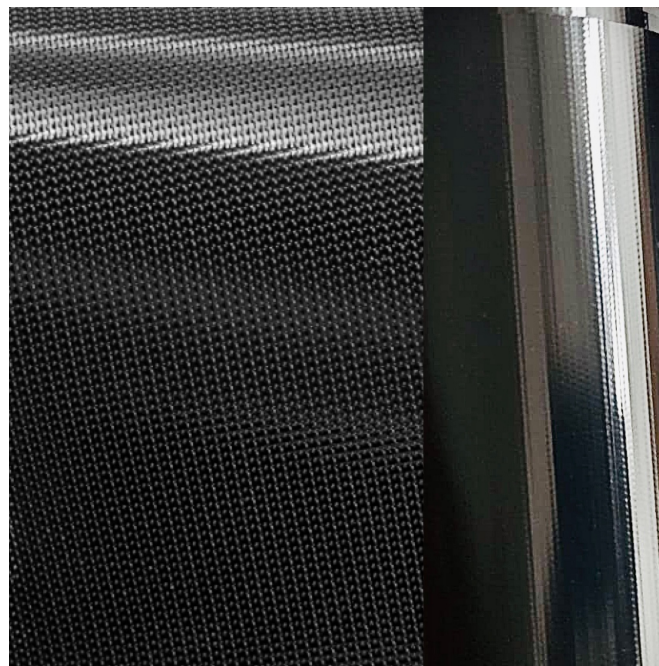

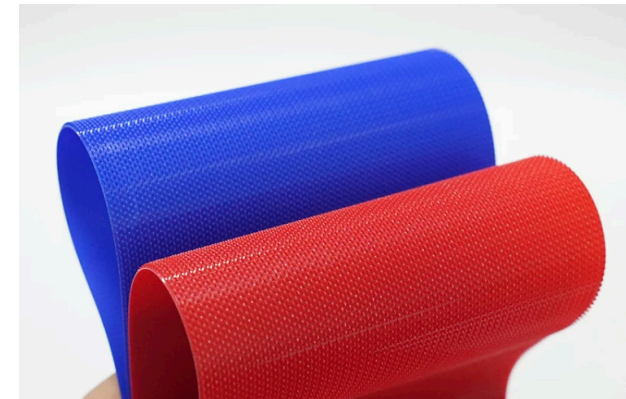

Uses: Medical equipment, baby clothing, Automotive supplies, toys

Material-Nylon & PP

Available in Black/ White/ Transparent / Colours

Widths-Customised widths ranging from 20 mm to 300 mm.

Technical-CPSIA & REACH

05 Elasticated Loop

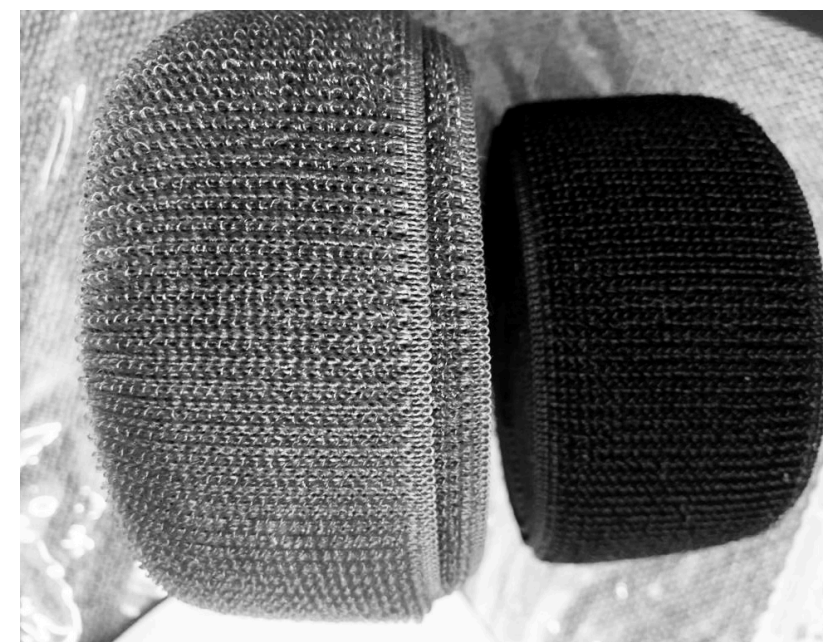

The Elasticated Velcro Loop from GBS is a flexible and adjustable fastening system. It combines the elasticity of the material with the convenience of Velcro for secure and comfortable closures. Great for various applications, like clothing , medical devices and products, sports and fitness applications

Material-Nylon + Polyester

Custom colours

Widths-20mm/25mm/30mm/
38 mm/50 mm/ 75 mm/100
mm /110 mm

Technical-CPSIA & REACH

06 Adhesive Dots

Adhesive dots Velcro by GBS offers a convenient Velcro solution with adhesive dots for easy attachment. It simplifies the process of securing items without the need for traditional fasteners. Useful for quick and secure applications.

Strong sticky Nylon self adhesive hook and loop dots

Size:

Diameter from 10mm to 50mm.

Colour:

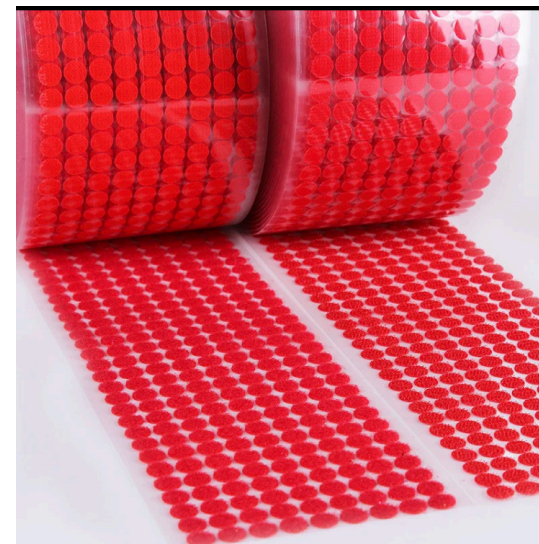

White, black or customised colour.

Uses:

Office, files, stationary, home, workshop, garage, appliances, children's play area and learning board.

Certificate:

All products have ROHS & SGS, and use environmental protection raw material to dye confirm to the European environmental protection standards.

GBS 7TH AVENUE
GLOBAL SOURCING AND CONSULTING

Velcro Loop Fabric by GBS is known for its strength and resilience. It is a durable material commonly used in various applications. Its soft loops provide a secure grip when paired with hook materials. The loops are meticulously designed to withstand repeated use without losing their grip. This fabric is frequently used in industries like fashion, medical, and sports equipment due to its reliability.

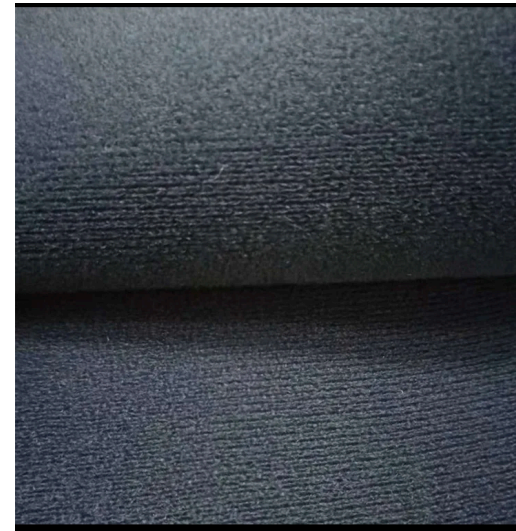

1. High quality loop fabric with long lasting repeatable hook and loop properties.

2. 120GSM to 250 GSM in Polyester and Nylon with soft and hard feel.

Uses-Orthopaedic braces and other medical products. Sports products and apparels.

Quality : Tested and Certified .CPSIA, REACH

Available in Black, White, Grey. Customised colours
