Spring 2021

FROM THE DESK OF JOHN V. POLOMSKY II:

TRUST AND ESTATE PLANNING UPDATES

Has your financial situation changed? Have you had a change in marital status or now do you have kids? There are many reasons to update or create an estate plan. Even small estates need assurance that devises go to the chosen individual. If you have not contacted us since 2016, we should meet to discuss your current estate planning needs. Call us for an appointment, or to schedule a virtual visit.

Call us to schedule an appointment to review your estate plan. Our Confidential Estate Planning Questionnaire is available on our website www.Polomskylaw.com to prepare for your meeting.

NEW BUSINESS DEVELOPMENT

Changes in work flow caused by COVID-19 have resulted in work from home ventures or new small business developments. These situations may require partnership agreements for the financing managers. You should also consider whether you want employees or contractors – laws will be different if you hire a contractor to work from home outside Michigan compared to having an employee in Michigan. And don't forget the possible security issues with virtual interviews. All these considerations are important to the success of your business.

Call us about for your business development needs.
