 This product is not designed for purposes other than those specified in this brochure. I do not use the device in case of technical error. Any defects must be properly repaired by a qualified and authorized person. Any accident caused by technical fault turn off the power and repair repairs at the service center. I must strictly adhere to the principles and
 rules contained in this leadership. juyosoplogde I do not let anyone know the contents of this user manual, check the device. Do not abuse, do not sit or stand on the door or the dishwasher. I do not touch the heating element during or immediately after use. I do not place heavy objects or stand on the door when they are open. luxukhenidja The device
 can move forward. This device is not intended for use in people (including children) with limited physical, sensory or mental capabilities or lack of experience and knowledge, unless the person responsible for their safety has provided supervision or instructions on its use. of the device. "Children should be monitored to ensure they do not play with the
 device. Avoid contact with skin and eyes and keep your children away from the dishwasher when the door is open. I washed the dishwasher corrosion! Make sure you keep it out of reach of children. wokkihenig Even check details heat page 3 important information ----- 22 Under certain conditions, hydrogen gas can form in a hard water
 installed by an authorized person and follow the instructions provided. zixyosuna Improper installation ----- 17 Troubleshooting ----- 19 Warranty ----- 20130201 Paperlo In conjunction with warranty service 1300 373 199 to connect to the nearest authorized service center. Page 2 * Under certain conditions, hydrogen gas can form in a hard water
 system that has not been used for two or more weeks. Hydrogen is an explosion. If the hot water system is not used for such a period, open all hot water taps before using the dishwasher and allow the water to run out for a few minutes. This releases accumulated hydrogen gas. As the gas is flammable, do not light an open flame during this time. If
 the power cord is damaged, it must be replaced by the manufacturer, its maintenance agent or a similarly qualified person to prevent a hazard. The product is not intended for any other purpose or specified in this guide. Do not use the device in case of technical failures.
