

SUSSEX SQUARE
SEALCOATING OF DRIVEWAYS
WEATHER PERMITTING

THE SEALCOATING OF YOUR DRIVEWAY HAS BEEN SCHEDULED FOR

THURSDAY, JUNE 4TH

IN CASE OF RAIN THE RESEALCOATING WILL BE RESCHEDULED FOR

THURSDAY, JUNE 11TH

UNLESS A NEW NOTICE IS POSTED

CARS MUST BE REMOVED FROM GARAGES AND DRIVEWAYS BEFORE 7:00 A.M.

The seal crew will arrive on site between 7:00 a.m. - 2:00 p.m.

Sealcoating will be completed between the hours of 7:00 a.m. – 6:00 p.m.

After the sealcoating is complete, do not walk on the sealcoat as to not track throughout the property. If you must walk across the seal please wipe your feet on the grass and remove your shoes prior to walking into your unit or stepping onto concrete.

DO NOT REMOVE THE BARRICADES.

The barricades will be removed by the contractor only. Approximately 48 hours. Once the barricades are removed, please use extreme caution, and do not turn sharply on the newly sealed asphalt to prevent marring of the sealcoat. The car must be moving forward or backward if you are turning the wheel to prevent marring of the seal material.

Seal material takes approximately 30 days to cure.

This means the seal takes approximately 30 days to fully harden and become uniform in color. Most tire marks should dissipate as the seal cures but if you crank the tires while not moving in a spot you can displace the seal.

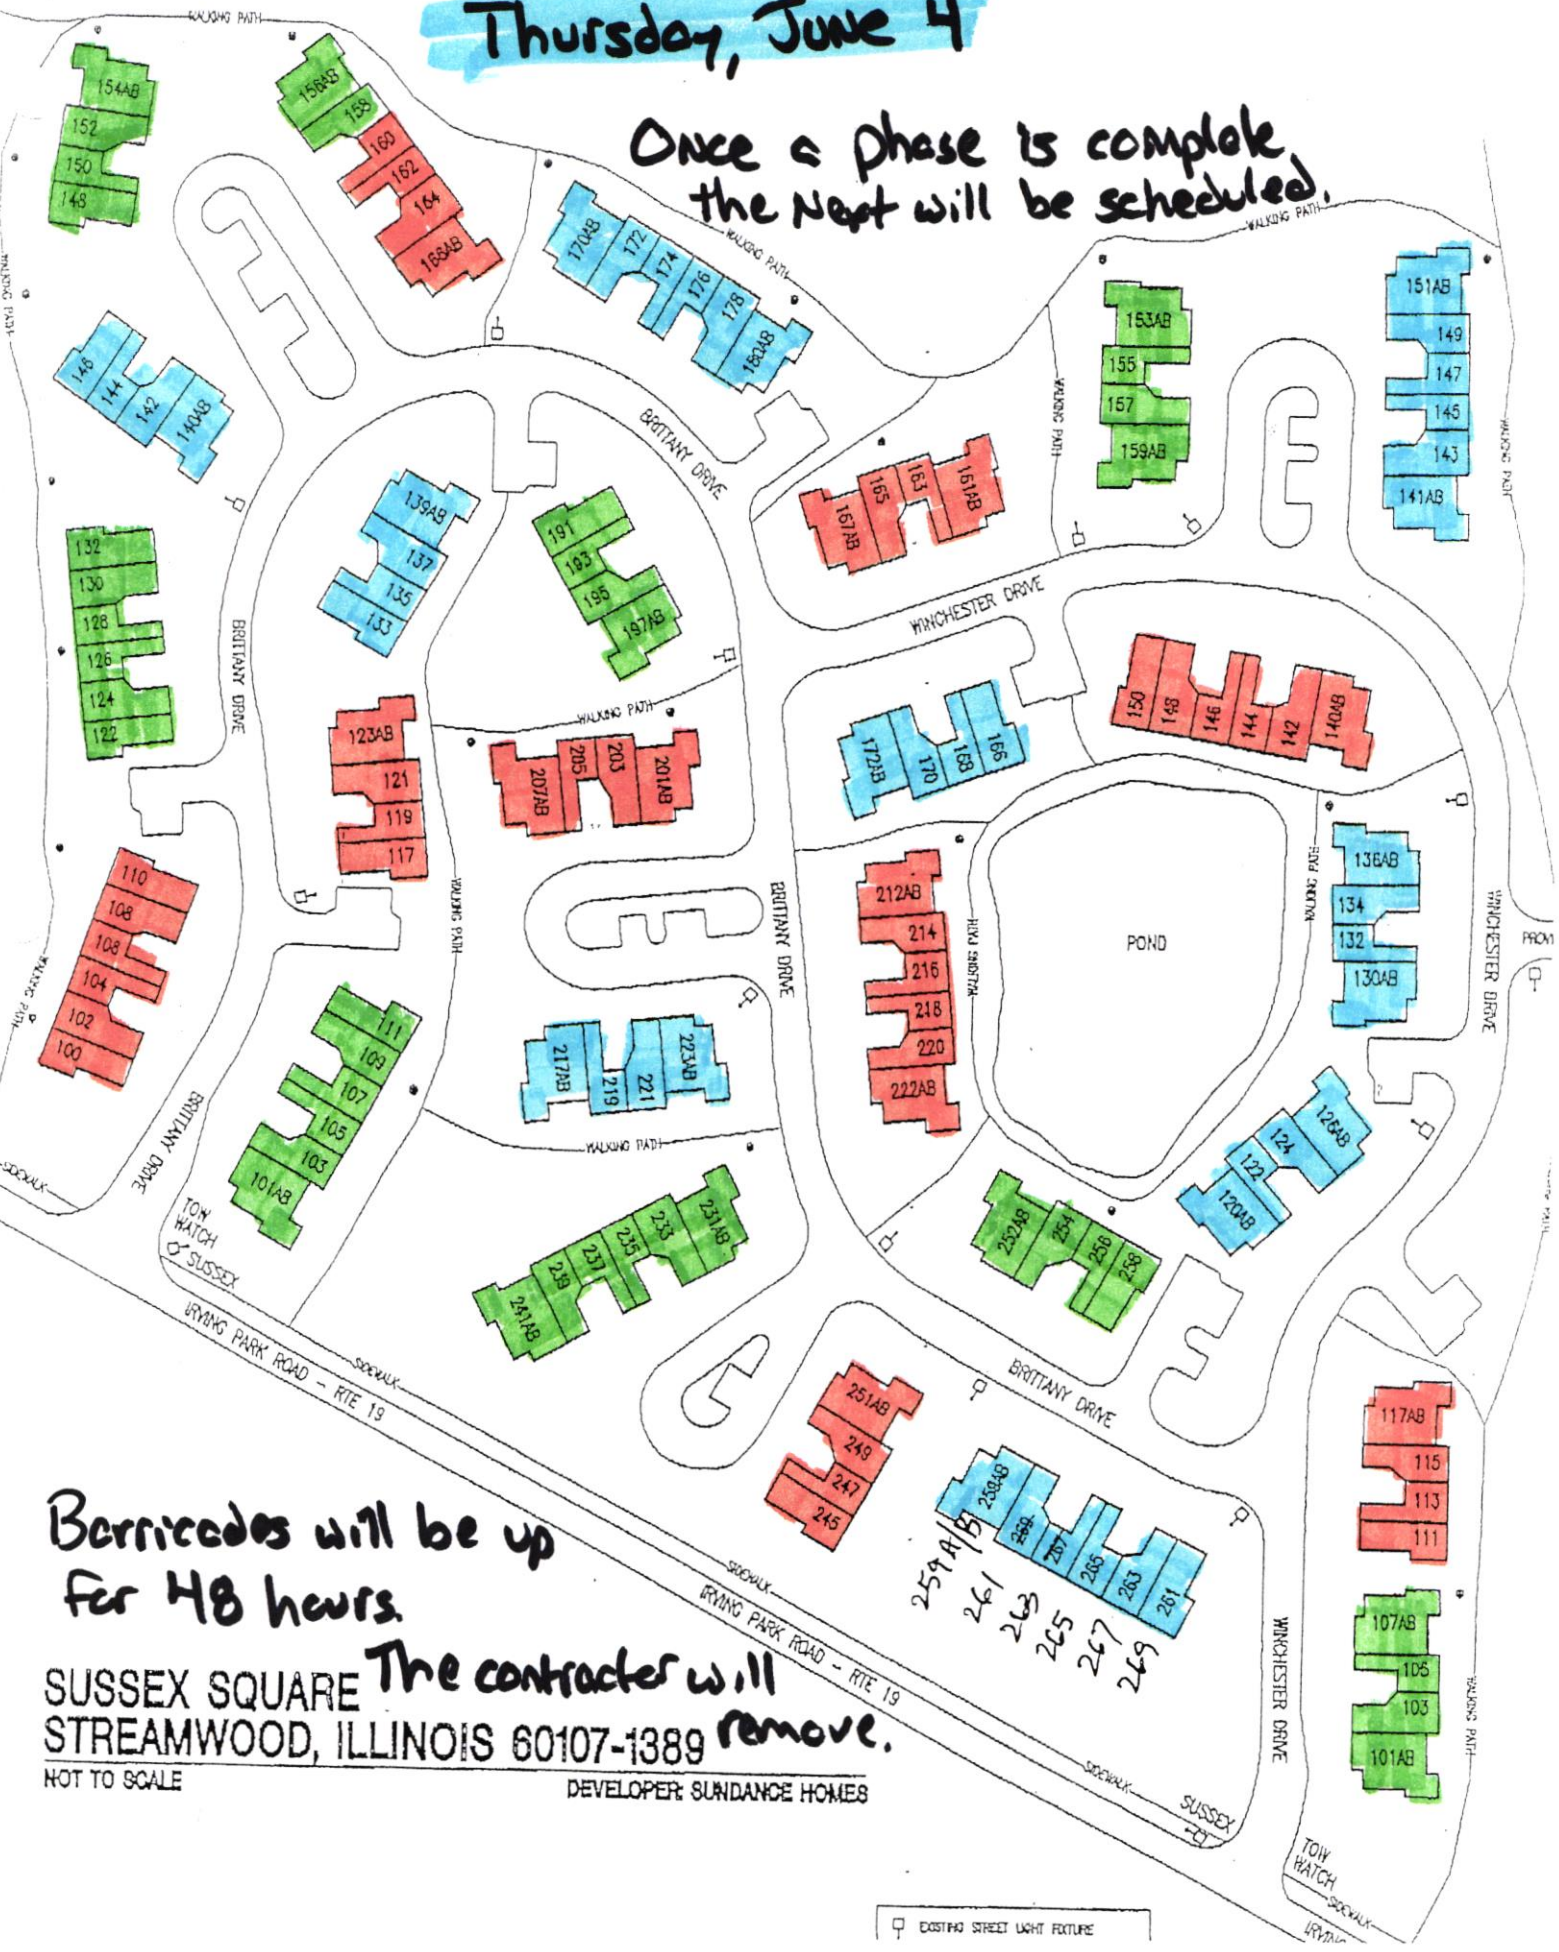

Management has made arrangements. When parking on the street overnight do not block fire hydrants, fire lanes, or access for emergency vehicles. Obey posted signs.

Notices to be removed by the resident. Thank you for your cooperation

Thursday, May 28
Thursday, June 4

Once a phase is complete the next will be scheduled.

Barricades will be up for 48 hours.

SUSSEX SQUARE The contractor will remove.
