New Mexico Drug Recognition Expert Program

To whom It May Concern:

Your employee is applying for the 2024 Drug Recognition Expert Certification Program. The program is broken apart into three phases:

PHASE 1: The DRE training consists of a **pre-school (16 hours)**. This is a two-day, classroom training in which students are introduced to the term "Drug "as it pertains to drug impaired driving. Students are also given a proficiency exam on Standardized Field Sobriety Tests, as well as a written test which they must pass to continue to the second phase of training.

PHASE 2: The **eight-day school (which is taught continuously after the pre-school) is 64 hours** of classroom training. During this classroom training, the DRE candidate is taught the techniques of the drug evaluation, each drug category and signs and symptoms associated with them and physiology. The student must pass a comprehensive test at the end of this section to move on to Phase 3. Both Phase 1 and Phase 2 will be held concurrently in **the Spring of 2024 Location and dates TBA.**

PHASE 3: This phase includes the field certification, which will be done at the California Highway Patrol Office in Sacramento, California or at the Mesa Arizona Police station.

Evaluations are done on "live" drug impaired subjects and the DRE must formulate opinions for twelve subjects. After certifications are complete another comprehensive exam is given before the student can become a certified DRE. Two trips are tentatively set for late April and mid-May 2024. Students that are successful in phases 1 and 2 will know the dates of their Field Certification trip prior to returning to their department. The student should plan to be gone 5 days (which includes travel days) for this portion of training.

To become certified as a Drug Recognition Expert, attendance is mandatory in all three phases of training. There can be no exceptions to this. Signing below indicates the student will be able to attend all phases of training. The NMDRE program makes every reasonable effort to pay for all expenses related to the students travel **up front**, to avoid the student having to wait for reimbursement. If travel expenses are furnished by the NMDRE Program on behalf of your employee, and the employee does not continue with all phases of training, attempts will be made to cancel reservations. If the NMDRE program cannot be reimbursed by the companies providing the travel accommodations, the student or agency may be responsible for reimbursing the NMDRE program, depending on the circumstances surrounding the cancellations.

*As you can see, the certification process requires travel (in Phase 3, possibly also Phases 1 and 2 depending on your location). **Please note that the program is funded in full by a grant and comes at no monetary cost to your agency. Lodging for Phase 1 and 2 (for students traveling 50 + miles to attend) and lodging and airfare for Phase 3 will be paid for up front by the grant however, Per-Diem must be paid for up front by the student. The student will be reimbursed at the Federal Per-Diem rate.**

Please note that reimbursement checks will be made out and paid to the **student** and not the agency.

Applicant, please read and initial each bullet point listed below:

I understand that, if selected, I am responsible for paying per-diem up front, and that I will be reimbursed (phase 3/possibly phase 1&2 as well depending on geographical location) _____

I understand that, if selected, reimbursement is done between NMDRE and myself, and not my agency _____

I attest that I am proficient in the administration and interpretation of the SFST Battery _____

I understand that attendance is mandatory for all phases of Training and if selected I will make the necessary arrangements to ensure perfect attendance _____

The class size is limited and not all applicants will be accepted. This selection is based on several factors. Students based in a geographical location with little or no Drug Recognition Experts will be considered first.

By Signing below, I acknowledge that I have read and agree to the above and still wish to apply/recommend my employee for this training.
