## INTRODUCTION

This report is aimed to the stakeholders who have the interest in Lincoln University College (LUC) sustainability performance, which includes the professional academic staff, students, local communities and international partners as well. This report also focuses on our quality education policy which reflects on the university in sustainability approach.

Quality education is one that focuses on the whole child such as social, emotional, mental, physical and cognitive development of each student regardless of its gender, race, ethnicity, socioeconomic status or geographic location. A quality education is supported by three key pillars which are:

- I. Ensuring access to quality teachers
- II. Providing use of quality of learning tools and professional development
- III. Establishment of safe and supportive quality learning environments

Lincoln University College (LUC) has a slogan “Education for All, Creating Job Worldwide” to keep up with the belief. The university college is consistently helping the individual who need backing to arrive at their objective. Besides that, our university library is also open for all. Information searching is most welcome. The university also helps with charity organization r to others that are unable to manage the cost of lecture hall, equipment and laboratory by themselves. Lincoln University College (LUC) is consistently there for them.

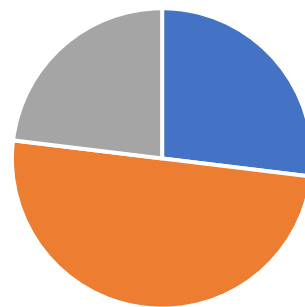

**Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all**

## EDUCATIONAL RESOURCES FOR THE COMMUNITY

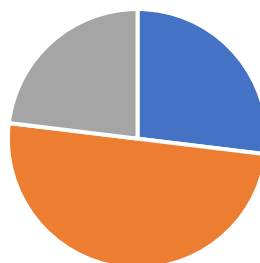

Lincoln University College philosophy is that everyone has a claim to quality education to better their life, advance their career and reach their desired level of personal success. As such, LUC have been consistently representing the individuals who needs backing to arrive at their objective. University Library is open for all. Information searchers are generally welcome. Model SPM question and answer application for pre-university students and lecture videos through LUC YouTube channels were also provided. There are some planned people and network, who cannot manage the cost of Lecture Hall, Equipment, and Laboratory by themselves, Lincoln University College is consistently there for them.

The screenshot shows a Zoom meeting interface. The main content is a slide with the following text:

**Why should research objectives be developed?**

- To **focus** the study (narrowing it down to essentials)
- To **avoid** the collection of data which are not strictly necessary for understanding and solving the problem we have identified
- To **organize** the study in clearly defined parts or phases

Properly formulated, specific objectives will facilitate the development of our research methodology and will help to orient the collection, analysis, interpretation and utilization of data.

At the bottom of the slide, there is a diagram of a target with an arrow hitting the bullseye, labeled "OUR OBJECTIVES".

The Zoom interface shows a video gallery on the right with participants: Dr. Sreemoy, Khairi Zar Zar Lwin, Thomas Nguyen, SUPRIATIN, Rafika Oktova, and Mr. Samudra Prasad. The video player controls at the bottom show a progress bar at 0:22:33 and a total duration of 0:49:50.
