FORMULATION OF HERBAL HAND SANITIZER

YEAR: 2023

**PREPARATION, FORMULATION
AND DISTRIBUTION OF HERBAL
SOAP AND DISTRIBUTION TO
LOCAL COMMUNITY**

INTRODUCTION

Herbal soap is made from natural ingredients such as juice, extracts, and vitamins derived from fresh medicinal plants. The complexity of combining various herbs makes the job both enjoyable and challenging. It's a lot of fun to come up with one's unique combination using artistry and creative imagination.

Herbs are natural and are safe, but those with sensitive skin should also be vigilant about herbal ingredients that may irritate the skin. Making herbal soaps is the same as with any other soap making. The trickiest part of it is choosing the herbal ingredients for the family. Soaps with synthetic chemicals strip the skin of its protective oils and may cause dryness, flaking, and skin dehydration.

AIM

The purpose of this project is to provide community-based support for the prevention of communicable disease and to promote good hygiene.

OBJECTIVES

1. To provide community-based support.
2. To help community who is unable to purchase hand soap.
3. To promote Lincoln University College (LUC) Faculty of Pharmacy.
4. To instill awareness and promote practice hygiene.
5. To estimate the effective soap and the complete protection time provided by asanitizer after application on the skin.

Laboratory Studies

Sequence of stages for evaluation of technical grade hand sanitizer materials and single-dose formulations of sanitizer products applied to human skin for personal protection.

Sanitizers containing alcohol concentration between 60% - 85% are suggested to kill 99.99% of microorganisms on hands. The sanitizers are effective on bacteria, virus and vice versa. Therefore, we were forced to assess the efficacy of alcohol-based hand sanitizers only on the selected bacteria but not on virus (SARS-CoV-2) due to our laboratory set up constraint for viral isolation and growth. Following this assumption and reviewing related literature, Staphylococcus Aureus, Escherichia Coli, Pseudomonas Aeruginosa, Klebsiella Pneumoniae, Salmonella Typhimurium and Shigella Boydii were selected at the department of microbiology laboratory at Lincoln University College (LUC).

The microorganisms were isolated from clinical specimens with culture, gram stain and biochemical test. During the study, clinical specimens were inoculated on chocolate agar, blood agar, and Monnitol Salt agar incubated overnight (35°C - 37°C) for colony isolation.

On the second day, the gram stain test was examined to differentiate gram positive from negative bacteria for all colonies. At the third day, the test organisms were isolated with biochemical tests using their biochemical characteristics after overnight incubation (35°C - 37°C). The isolated test organisms were stored on storage media and kept at (2°C - 8°C). It will refresh on nutrient agar and used when needed.

Aloe vera leaves and ten (10) pieces of guava leaves are collected and washed thoroughly to remove the unwanted particles and dusts. The aloe vera leaves are cut into half and inner pulps are separated from leaves with knife. The pulps were grinded in grinder machine and place the gel into a separate bowl. washed guava leaves were added in water and the leaves are boned out

specific ingredients are used to make this sanitizer. Next important ingredient use to make this a syrupy texture.

The syrup will then be strained to remove dust. In a 100ml empty bottle, it will be filled with 70ml of surgical spirit. Then, 07ml of guava extract syrup were added into the bottle. Lastly, 01 ml of Dettol is added and mixes the whole mixture to get homogeneous liquid sanitizer. The total amount of sanitizer is 100ml per bottle. The ingredients used for hand sanitizer are brought from the market. Besides that, the amount of ingredients used to make the sanitizer is listed and the corresponding prices are calculated. The total cost of one bottle of sanitizer (100ml) is calculated.

The main ingredient of sanitizer is alcohol. Alcohol based sanitizer is effective to control the

specific ingredients are used to make this sanitizer. Next important ingredient use to make this transmission of disease and it maintains the hygiene on hand. Besides that, surgical spirits is also used as it contains Isopropyl alcohol. After reviewing on all the side effects of sanitizer, some sanitizer is the aloe vera gel. Aloe vera has high healing capacity. It reduces wrinkles on skin because it contains Polysaccharides and growth Hormone Gibberellins. It also prevents the scar tissue and helps to form new cells. Aloe vera gel also gives relief from skin burn and itching. Aloe vera is one of the famous herbal for skin treatment.

The next ingredient is glycerin. Skin disease like dryness, damaging, cracking of skin, eczema, skin irritating can be recovered by applying glycerin. It accelerates the wound healing process and it shows anti-microbial effect. Glycerin has unique ability to remove dead skin cell and it helps to generate new skin cell which is why glycerin is introduced as and ingredients for this hand sanitizer. Guava extract is effective against bacteria and it shows good activities against intestinal microbes, Vibrio Cholera, etc. Guava leaves has also the ability to heal the wound surface.

Maintaining proper hygiene is an important part of sanitizer. Due to the demand of sanitizer in this pandemic, many new brands of sanitizer have come into the market but there is always a doubt on the effectiveness of sanitizers. If proper amount of alcohol is not used, the sanitizer willnot be effective. In order to check the amount in the sanitizer is accurate or wrong, we have performed two small experiments which are:

- I. Tissue Paper Test**
- II. Wheat Dough Test**

Tissue Paper Test

This test is based upon Paper Chromatography. We have drawn circle by ball pen on tissue paper and poured some drops of sanitizer on the circle. If the sanitizer contains sufficient amount of alcohol, the ink will be dissolved into sanitizer and starts spreading. It is observed that the sanitizer slowly diffused and moved out of the circle.

Wheat Dough Test

In this process, we have poured some sanitizer on 01 table spoon on the wheat and mixed it. If excess water is present, it will turn the wheat into dough. It was observed that there was no formation on the dough. If both hands are rubbed by alcohol sanitizer for 30 seconds, following by a complete air drying. This can effectively reduce population of bacteria, and fungi. The similar result was seen after rubbing the hands by the sanitizer.

REPORTS

Lincoln University College (LUC) have conducted a campaign to distribute this herbal formulated based hand sanitizer to the common people in completely free of cost

3.0 Conclusion

- There shall always be room for improvement and we gained a lot of new experiences through conducting this community project. We will try to improve upon our future project. Besides, this is a good start for us as future successful dentists in order to educate the community regarding oral health and hygiene and most of all in planning a project that involves collaboration with other agencies.
- We would like to thank Mr. Mohamad Zamri bin Jamil, Dr Mislihah for giving us an opportunity to conduct this programme at residents of Kampung Parit 9/10 & 11, Gambut ,Sungai Panjang in order to educate the residents on the importance of good oral health and ways to maintain good oral health.

EVENT REPORT

On the 19th of April 2023, some delegates from Lincoln University College, Malaysia had a meeting with the members of the National Assembly house committee on SDG development in Nigeria on UN-SDG policy development and the roles of universities towards the implementation and adaptation of the 17 UN-SDGS in Nigeria. At the meeting, some action plans were discussed. In attendance are:

- The members of the National Assembly house committee on SDG development.
- Executive Secretary Nigeria Ministry of Education.
- Deputy Executive Secretary, National Universities Commission.
- Director of Research and Senior Professors from Lincoln University College Malaysia.

Among the issues addressed at the meeting are:

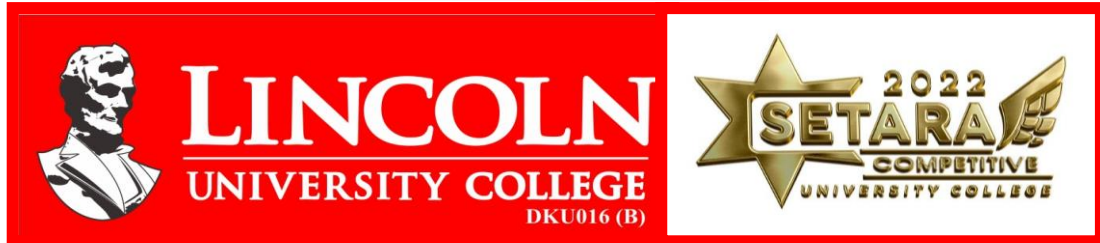

- Problems and Challenges facing the implementation of UN-SDGs in Nigeria.
- Policies and strategies for smooth implementation of the 17 UN-SDGs in Nigeria.
- Interventions to support the UN-SDGs implementation in Nigeria.
- Strategies that enable adaptive management of the UN-SDGs in Nigeria.
- Entrepreneurship and skills acquisition Trainings.
- ICT Trainings for All.
- Vocational Trainings for All
- Financial supports (Funding) for startups among others.

At the meeting, the Director of Research, Lincoln University College Malaysia vouch to continue to conduct ICT Vocational Training Series to the Nigerian youths through Lincoln University College Professional Training Center. According to him, the training has been going on in Malaysia for more than 5 years and it has really positively transformed the life of many. The training prepares every participant for the competitive job market of the 21st century. It provides them with a solid foundation and skills in the field of ICT that will enable them to become self-reliance.

SOCIAL ENTREPRENEURSHIP DECLARATION
Issued jointly by the attendees in the
International Youth Social Entrepreneurship Summit 2021
August 12-13

WHEREAS there is an increasing realization about the limitation of traditional models of businesses especially from the perspective of sustainable development, environmental conservation and promotion of social values such as equity and inclusivity while creating a network of key stakeholders including entrepreneurs, investors, business angels and international organizations to augment necessary changes in the existing ways of pursuit of economic ideals;

WHEREAS the international community realizes the importance of enterprising ability of young people for the promotion of higher standards of living, full employment, and conditions of economic and social progress and development, with a view to the creation of conditions of stability and well-being based on respect for the principle of equal rights;

WHEREAS the emergence of various models of social enterprises are highlighting the crucial role that innovative business solutions, and in particular the role of youth-led social enterprises and start-ups, can play in achieving social objectives at local, regional and global levels and in addressing pressing social and economic challenges;

WHEREAS there is a recognition of the importance of providing entrepreneurs access to the necessary tools, knowledge, and networks to promote collaboration on the role of youth led social enterprises, and to build the capacities of existing and aspiring social entrepreneurs, leveraging on their respective expertise, with a view to achieving the Agenda 2030 and the SDGs;

Representing a collage of social entrepreneurs, campaigners, NGOs, young innovators, researchers and academicians present at the International Youth Social Entrepreneurship Summit, 2021, we, believe that social entrepreneurship and youth led social entrepreneurship should receive desired attention to empower young women and men in realizing their full social and economic potential and in putting innovative business ideas into practice with a view to achieving higher levels of living and development Consequently, we call upon the decision makers to:

1. Increase efforts to build a supporting entrepreneur ecosystem for encouraging social entrepreneurs to successfully create and develop their social enterprises, including rightful legal recognition, improved access to markets, networks, knowledge sharing platforms, and skills (global virtual education and training), and improved access to sustainable sources of finance;
2. Establish partnership channels among all stakeholders (young people, government, civil society, academicians, advocates, political leaders and community leaders) for the promotion of entrepreneurship, and particularly social entrepreneurship, for inclusive and sustainable development, and recognize social entrepreneurship as a key driver of job creation and economic independence and empowerment, with a special focus on groups which are underrepresented in the society;

3. Develop a strong financial marketplace for social entrepreneurship by giving legal recognition and incentivizing private sector leaders to support financial arrangements such as crowdsourcing, venture philanthropy, and angel funds and other funding channels which provide social enterprises working in the sector of climate change, sustainable development, agriculture extension services, health services etc;
4. Accelerate the task of designing activities to increase the number of social enterprises and startups which are committed to jointly take action towards the achievement of the SDGs and promote research on the best practices regarding social entrepreneurship to facilitate sharing of best-practices in different sectors and countries;
5. Bring entrepreneurship classes within in the formal education system, with a specific module on social entrepreneurship and create platforms to increase soft skills, digital skills and other leadership attributes of social entrepreneurs;
6. Promote networking among aspiring and potential entrepreneurs and social entrepreneurs, local authorities and national governments, international organizations, voluntary organizations, representatives from academia, science, technology and educational institutions, investors, and others, to commit to this Declaration and strive for its observance through their respective strategies to support and enable entrepreneurship, with a particular focus on youth, women.

The International Youth Social Entrepreneurship Summit was organized under the title "Youth Innovation and Incubation for Achieving SDGs, Recovery from the COVID-19 and Prosperity" on 12th -13th August, 2021 on the occasion of International Youth Day. This event was landmark for promoting Social Entrepreneurship in globe because this has brought more than 800 persons from 20 countries form the diverse sectors such as, policy makers, experts, academia, social entrepreneurs', CSOs, private sectors, cooperatives, media, development partners together for breaking through on understanding about the social entrepreneurship and policy framing and encourages mobility of youth on social business as well as in the creation of a strategic direction on achieving 2030 agendas and prosperity. Subject : Award of 80% scholarship for admitted students whose family income falls within the bottom two financial deciles.

Dear Puan Aslin,

Due to the financial challenges many are facing as a result of the economic hardship in the country, lots of families are forced to adopt new rules, practices and regulations in order to fulfil their basic needs.

In the view of the above concern, several ideas were presented to the university top management to mitigate the negative impacts of this effect on the said families especially when it comes to accessibility to good and quality education for students whose family income is within the bottom two financial deciles. Therefore, the university management has approved the award of *80% scholarship* tuition fee reduction for all admitted students who falls within the bottom two financial deciles or belong to the B40 or below category in Malaysia starting from November 2022 intake.

On this note, please direct all newly admitted and current local students to visit the Accounts department to get their updated statement of account.

REPORT OF THE 3 MEMBERS OF THE EDUCATION ASSOCIATION THAT WON LINCOLN UNIVERSITY COLLEGE SCHOLARSHIP

The Malaysian Education Industry Association, the Penang Education Industry Association and the Penang Pre-school Education Association signed a memorandum of understanding with Lincoln University College to strive for benefits for its members and obtain more than 50% of the scholarship provided by Lincoln University College to complete the Diploma in Early Childhood Education.

Due to the tuition fee, there are still many preschool teachers who cannot complete the relevant diplomas, so we hope to help more in-service preschool teachers to complete the preschool education diploma by 2025, otherwise they will lose their teaching qualifications in the future. We also hope to reduce the shortage of teachers faced by practitioners by assisting more early childhood teachers to obtain the Diploma in Early Childhood Education.

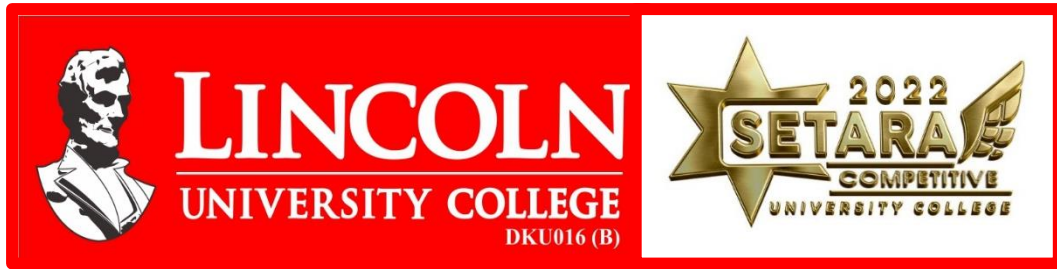

The signing ceremony was held at the main campus of Lincoln University College. It was presided over by Dr. Li Ying Hua, Chairman of the Malaysian Education Industry Association, Dr. Lim Ming Xue, Chairman of the Penang Education Industry Association, and Dr. Amiya, Founder and Principal of Lincoln University College and Deputy Dean Dr. Xu Conghui. Attendees included the Malaysian Education Industry Association Acting Chairman Ho Chuan Ho and Vice Chairman Nora Feida.

Subject : Approval of RM10,000 grant for start-ups of sustainable businesses to the best 20 participants of every entrepreneurship training conducted by LUC Center for Entrepreneurship Development in the local community.

Dear Mr. Edmund,

In line with our philosophy, Education for all, Lincoln University College is committed to make entrepreneurship trainings and skill acquisition programmes a top priority especially in the local community. Trainings are to be conducted quarterly by the Center for Entrepreneurship Development to the local communities.

The training should be centered around the making of popcorn, crafting, snacks, ice cream, batik, baking etc. The end goal is to ensure that all participants acquire and develop skills that will make them self-reliance.

In the view of the above, the management has approved a sum of *Ten Thousand Malaysian Ringgit (RM10,000)* to be given as startup fund to encourage the startup of sustainable businesses in the local community.

On this note, kindly forward the details of all the eligible participants at the end of every training to Accounts department in order to process and hand over the fund to them.

Lincoln University College remain committed in making quality education accessible and affordable to everyone irrespective of race, gender, religious affiliation or societal status.

SCHOLARSHIP AND FINANCIAL ASSISTANCE FOR LUC STUDENTS

We are pleased to inform and congratulate you as one of our recipients of our **Good health and Better Education scholarship** for University students.

The Management of MAXURA HEALTHCARE SDN BHD has approved the amount of **One Hundred Thousand Malaysian Ringgit (RM105,000)** as a financial support for student from low income families.

We have instructed our banking partner to transfer the said amount into your bank account details. We hope this will go a long way in impacting the less privilege students to complete their programs with you and promote good health and better education.

Sincerely,

Dato Murad Sharuldeen

CEO

Dear Registrar,

LUC SCHOLARSHIP AWARD LETTER STUDENTS

Florina Tours Travel SDN BHD Scholarship Trust (the “Charitable Trust”) is pleased to inform you that it has awarded a scholarship to 23 students from Low Income Families to assist them with their studies at your university.

The scholarship will provide them with a one-time cash payment of **RM2,550.00** for expenses related to student enrolment and registration processing for the 2023-2024 academic session and **RM10,000.00** as full tuition fee for each student.

By accepting the funds, you agree that you will provide a yearly report of the following:

- List of the beneficiaries of the scholarship fund.
- Yearly Academic Reports (Semester Results, Projects and Testimonial videos from the beneficiaries)

On behalf of Florina Tours Travel SDN BHD Scholarship Trust, may I extend every good wish for all recipient future success.

Sincerely,

Hajia Bibi Florina Abdullahi

President,
Lincoln University College, Malaysia

Dear Honorable President,

SCHOLARSHIP FOR ALLIED HEALTH STUDENTS AT LINCOLN UNIVERSITY COLLEGE FOR THE YEAR 2023

Greetings,

K Management Support SDN Bhd has been socially helping poor and deserving students to reach their dream. Our company have selected Lincoln University College as we believe in your tag line **Education for all** and dedication towards delivering quality education to the society.

We will be sponsoring 17 students who wish to take Diploma in any Allied Health sciences programme. To qualify for the scholarship, student must maintain a minimum GPA of **3.00** in their first semester results.

We will be responsible for their total tuition fees, living and personal expenses until they complete their study at Lincoln University College.

In line with this good Samaritan act, we humbly request from your good office to help us reach our goal by giving us 15% to 30% discount on the program tuition fees.

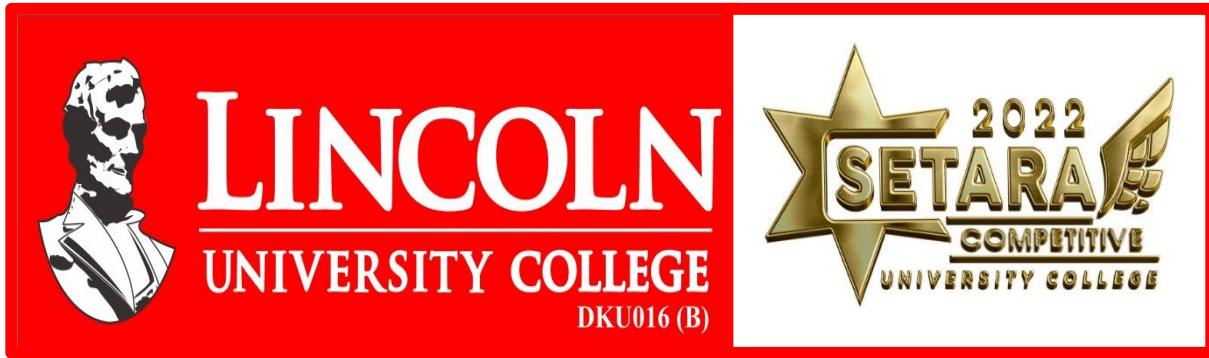

We want to hear your thoughts about this sponsorship and hope for your positive response.

Sincerely,

Puan Aslin Hafiza Ali

Executive Director
