Dan,
Mountjoy extended a verbal offer on 9/3/2018 as follows:

1. Withdrawal of all claims and his attorney complete paperwork requesting the case be dismissed.
2. Pay all collected rents, to include interest calculated from his financial statements for Roland and Plantation.
3. Pay back the proceeds he took from the sale of Plantation.
4. Pay back other sums he kept that were joint, like landscaping the joint property boundary, etc.
4. Agree to recognize joint property ownership based on percentage of contribution by each party.

I will continue to pay 1/2 the Gunston mortgage (which counts as additional equity against my present equity) and pay 1/2 joint expenses (any excess in joint expenses by either party counts towards their equity) Sign over the boat and/or pay me what I loaned him to purchase it.
It is a verbal offer and he is hopefully putting this in writing so I will see where we are at the end of the day.

OK. That's more or less the concept, but of course it's the actual dollars that matter.
