Mrs Noblegas 的麵粉派對

Mrs Noblegas's Floury Dilemma

學習概念：

小小科學家藉著開辦各種各樣的派對研究在廚房裡會出現的各種科學現象，例如靜電，細菌，麵團的形態等。科學家更會透過自己的創意和五感，學習簡單的數理以及電腦程式設計。

Learning concepts:

Little scientists will discover different science phenomenon in a kitchen setting, such as static Electricity, germs, the forms of flour etc. Scientists will also need to use their creativity and five senses to build a foundation on their skills on computer programming and coding.
