July TSW Meeting

July 16 at 7p.m.

While we would like to physically meet again it looks like it may not happen in the near future so the officers are working on an alternative. Many clubs are conducting their meetings via Zoom and we want to try doing the same for TSW. About 20 of our members were involved in the Zoom meeting last month with Glenn Lucas, which was a huge success and excellent demonstration. Zoom meetings allow for interaction between the demonstrator and the participants.

In order to get started we have set-up a practice meeting for July 16, 2020 at 7:00 p.m. If you have not participated in a Zoom meeting before it is really very easy and we have people available to help walk you through the process. The first part of the meeting July 16 is to help acquaint you with Zoom.

Set an alarm to remind you of the Zoom meeting

July 16th at 7:00 p.m.

At the Zoom meeting we will discuss Zoom, future meetings and try to answer your questions. The meeting will probably only be 40 minutes (time allotted by Zoom). If you have turned some things, have them available to show during the meeting. This can be as interactive as you wish it to be.

President's Corner

We are continuing to adjust to life with the pandemic. As I talked about last month, we are working towards moving to virtual meetings and demonstrations. As John has laid out in this newsletter, we will have our first virtual meeting utilizing the Zoom Conferencing App next week. I'm looking forward to getting our meetings going again to include demos and

show & tell, even if we can't meet in person.

Don't forget to continue supporting our service projects. Our troops are still deployed, Christmas is coming and children are still suffering from chronic childhood diseases. So, please support these projects.

Keep yourselves safe.

AAW Symposium

The Web

The 2020 Symposium in Louisville was canceled but the AAW came up with a virtual Symposium. The cost is so minimal and the quality of turners are of the highest quality. The online symposium will be held July 10-12, 2020. In addition to the symposium the videos will be available for a couple weeks following the event. If this newsletter gets to you prior to the event let it be a reminder to log in and take advantage of this amazing opportunity.

This link is an interesting method of turning a square bowl. It's only about 17 minutes long. It is on Youtube and called a multi-axis bowl. I think you will enjoy this.

If you like the video you can log on to his web site and subscribe to his channel. The picture below is what Gary turned in the video.

Glenn Lucas Demo

About 20 from TSW logged in to view the Glenn Lucas demo June 27th. It was well attended by our club members and extremely well done. If you missed it, I'm sorry you missed a great opportunity. It was announced in an email June 1. Watch for these special occasions and act while there is time.
