## June Demonstrator Frank Bowers

Tri-State Woodturners  
An official AAW chapter

Our demonstrator this month is a very popular presenter, Mr. Frank Bowers, who is the owner of F.B. Woodthings, Inc. where he turns for fun and profit. Frank's talent earned him a place in the 2001 Juried Exhibition sponsored by Highland Hardware. He also teaches at the John C. Campbell Folk School and is an active member of the Georgia Association of Woodturners.

Frank's demonstration Saturday will be "Log to Bowl". Frank has demonstrated for our club many times in the past and does a splendid job. You are encouraged to attend and bring a friend to the meeting this Saturday.

Frank will show you how you can make a bowl from a log from cutting the blank to turning the bowl. Don't miss this demonstration this Sat. June 17 at 1:00.

# May Demonstrations

Don Moore demonstrated the art of making flowers during the first session with some creative designs.

During the second half of the meeting John Dekle discussed how to make the slim-line pen, that kits are available for making pens for the troops and then talked about a modified version of that kit.

Tri-state Woodturner Mentors

Don't forget the opportunity to give to others by turning one of the donation projects; Beads of Courage Box, Pens for the Troops or Ornaments.

**NEW MEMBER MENTOR:** Are you new to wood turning or at least have an interest in it? TSW provides an opportunity for you to learn from other turners who are willing to give you personal instruction and guidance. There is no fee for this instruction for TSW members. Contact one of the listed officers who will guide you to select a helpful mentor for you.

The following sponsors give generously to Tri-State Woodturners and we want to encourage members to support them generously

## The Art of Inlays and Embellishments with Myra Orton

Weeklong- July 30-August 4, 2023 - In this workshop, you will apply Myra Orton's one-of-a-kind inlay and embellishment techniques she developed for use on wood turned lidded boxes. Learn how to wood turn lidded boxes and become proficient in the art of inlaying unique items (on and off the lathe) such as purfling, abalone, mother of pearl, leather, copper foil, and various species of wood. You will acquire knowledge in using pyrography, specialty tools, a power carver, and a variety of coloring techniques. As you work through your projects, you will further enhance your end grain and side grain inlays with learning how to apply composition, creativity, and gain an understanding of where to find inspirations for embellishments that tell a story. This workshop is interesting, fun, filled with in-depth instruction, and hours of guided hands-on time. Intermediate - Advanced, \$100 materials fee. All wood and most specialized equipment will be furnished. There is a tool kit available at each lathe station but you may bring your own tools. Following is the direct link to the registration for this class.
