

Every SINGLE Moment!

MATE MOBILITY

SINGLE

GOLFEV

Single-Rider Golf EV Swift Travel. Calm Play.

Experience the ultimate single-rider cart designed for pure focus.
No waiting. No detours. Drive directly to your ball.

Stable Drive

Independent suspension, EPS, EPB for a stable, sporty ride.

Round After Round

Up to 50mi (80km) range for multiple rounds on a single charge.

Automotive-level comfort, even in winter

Ergonomic, heated seating with adjustable positioning delivers relaxed, controlled driving for every player.

Signature LED Lighting

LED headlights, high beams, and sequential turn signals for style and safety.

One touch, Secure hold.

A quick, intuitive mounting system keeps your golf bag stable in all driving conditions.

Personal Audio System

Wireless speakers for a personalized, premium in-cart experience.

Built-in Club Brush

Built-in golf club cleaning brush for clean grooves and consistent shots.

Cooling designed for summer play.

Roof shade and targeted airflow work together to keep you cool and focused through the final hole.

Geofencing Safety Control (optional)

SINGLE's proprietary geofencing prevents entry into restricted areas, supporting safer play and more reliable course operations.
