Dear <<First Name>>,

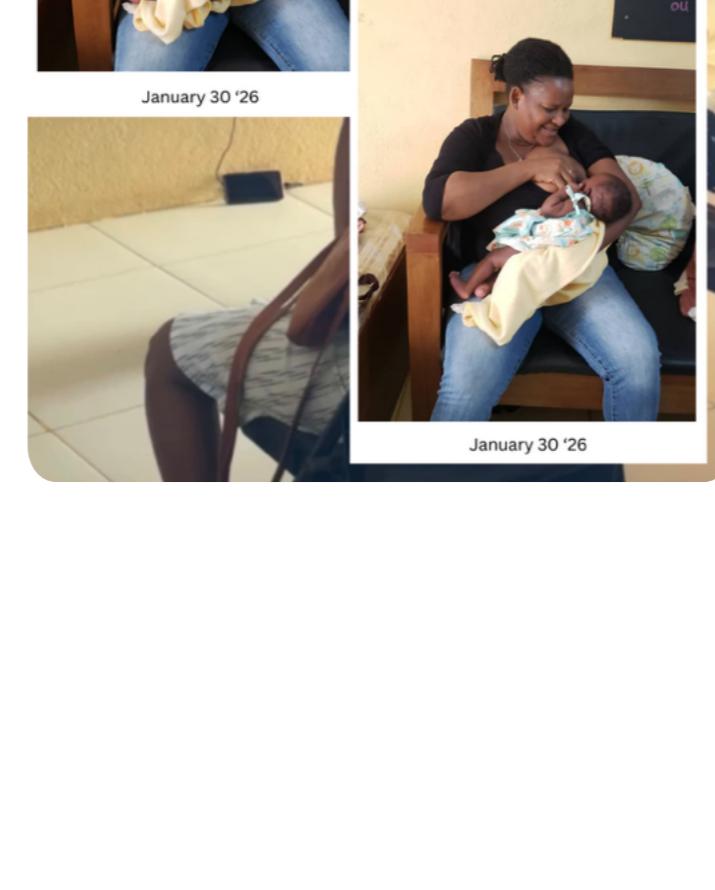

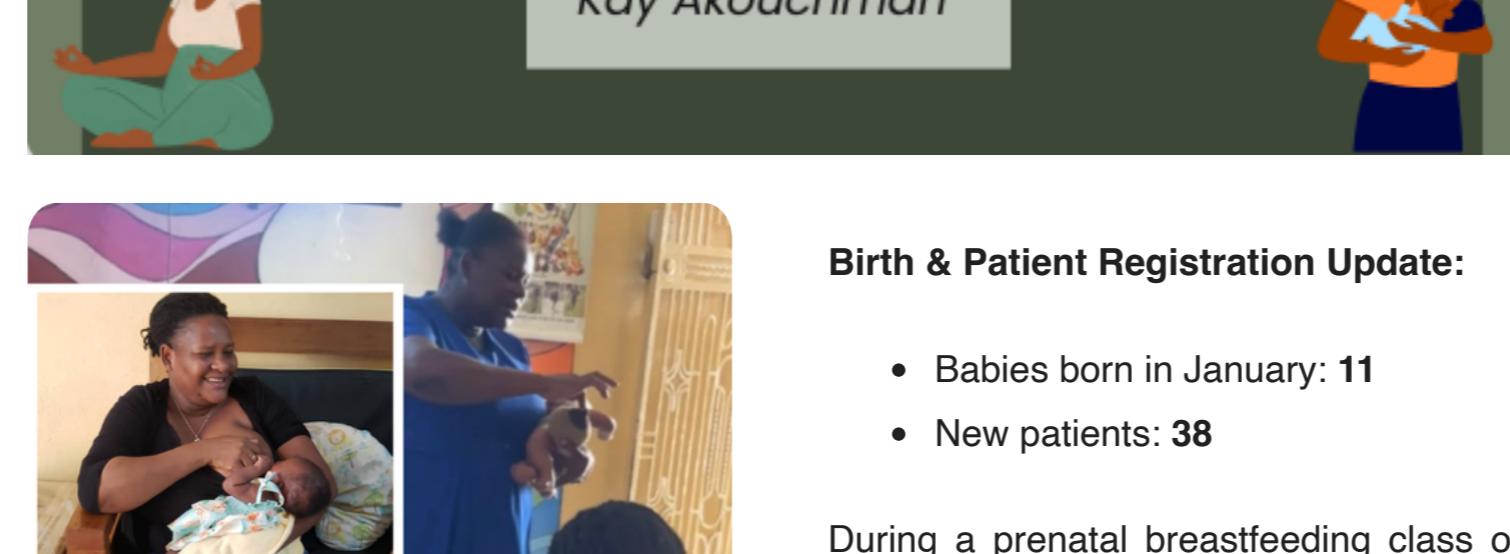

January brought a steady rhythm to our clinic. From new patients beginning prenatal care to mothers returning for postpartum visits and the joy of welcoming new life, Kay Akouchman was full of activity. Our midwives were also busy behind the scenes, training on our new patient record system made possible by the Rotary Club of Guelph South. As 2026 gets underway, sustaining this care remains essential — and we invite you to consider becoming a monthly supporter, helping accompany mothers through prenatal care, birth, and postpartum visits, month after month.

We are deeply grateful to the donors who continue to stand with families in Jacmel and make this work possible. As our community grows, we'd love to hear **your story and what connects you to Olive Tree Projects** — and, with your permission, find ways to honour that generosity more visibly. We invite you to share a few words about **your connection to OTP and why you choose to support this work**, and to let us know whether you're comfortable having your name (or initials) shared as part of our donor community. Your story — and your choice — matter to us.

Sharing is always optional and entirely up to you.

Birth & Patient Registration Update:

- Babies born in January: **11**
- New patients: **38**

During a prenatal breastfeeding class on December 4, a schoolteacher preparing to welcome her third child shared encouragement and practical insight with other mothers, reflecting her commitment to supporting women in her community. Having discovered Kay Akouchman for this pregnancy after not knowing about us during her first two, she took part in our prenatal and exercise classes before welcoming a healthy baby girl on December 18. At her final postpartum visit on January 30, she expressed heartfelt gratitude for her experience and shared that she will continue recommending Kay Akouchman to families in her community.

Our Family Support Program (FSP) continues to support 14 families. Building on December's momentum, Catherine led a workshop for our older beneficiaries titled **“Dekouvri Sévis Mwen”** — Discovering My Purpose. Using guided Venn diagrams, participants explored what they enjoy, the talents they hold, what the world needs, and how they might one day earn a living. The session encouraged self-reflection, confidence-building, and a clearer sense of how their skills can contribute to their community. As we look to expand this life-skills work and reach more young people, continued donor support will help us grow and deepen the program.

Support Olive Tree Projects in its **life-saving** work—your donation **helps** provide **essential care** and resources that change lives for **mothers, children, and families** in Haiti.
