

MLS # 16-2612

\$259,000

A home is on an oversized corner lot, originally a log home. Built in the 1930's, later updates include stucco exterior and lath/plaster interior, & lots of original touches. Remodel done in 2004 adds a master suite and art studio. The front porch has been closed in and functions as a sun room, with a big log accent in entry to dinning room. There are wood floors throughout, and storage cubies everywhere! Many of the windows are original wood with storm windows still functioning. Seller owns Lot 1A to the west, and is in process of a Boundary Adjustment, in order to release 1/2 to W2 Lot 4 Blk 11, and add 1/2 to this property. This will take from a .25 acre lot to .375. This will be completed and a new title will be recorded before sale. This property is just waiting for someone to come along and make their piece of Driggs history!

A PIECE
OF
DRIGGS
HISTORY!
