

Semi-Sweet Chocolate Chip

#TH2001 \$22
Pre-portioned

Oatmeal Chocolate Chip

#TH2003 \$22
Pre-portioned

Frozen But Friendly

Q: What makes your cookies shelf stable?

A: It's in the ingredients. Lots of cookies are made with egg and butter, they are also the ingredients where bacteria can grow. We use whey protein, which is a common egg substitute in baking, and a Certified Sustainable palm oil shortening. These ingredients not only make our cookies Shelf Stable but also taste great!

Q: Do you add preservatives to your cookie dough?

A: No, we do not add preservatives to our cookie dough. Some of the ingredients that we purchase may contain preservatives. Examples include chocolate products which almost always have soy lecithin added and natural egg products will contain citric acid to name a few.

Q: What is the advantage of using shelf stable cookie dough on a fundraising sale?

A: Parents are busier than ever and missing a pick up on delivery day will not mean disaster for administrators, teachers or parents. You do not have to scramble to find freezer space for the items not picked up. The cookie dough can be stored at room temperature at 77 degrees or below for up to 21 days!
