

Fundraise Safely with hybrid fundraisers!

Kick-Off Resources

Whether kicking off in person or virtually, it's important to create excitement for your students. It is also CRITICAL for the sponsor, principal or administration to electronically communicate with parents and students during the sale. Don't worry, we'll provide the templates and turn-key campaign!

Online Dashboard

We're a technology-based fundraising company! That's why sponsors and students get the best dashboards in the business including text/email/social share links, real-time data, custom reports, goal tracking, sponsor resources and more!

Prizes & Contests to Incentivize

Student incentives can increase participation 25%+. Whether you offer one of our prize programs or collectible daily incentives, it's guaranteed to pay off! Plus, we've launched our new REGISTER. SHARE. WIN. game with \$100,000 in prize giveaways.

Online Shopping

Online orders, on average, result in 3X more items purchased which means more profit for your group! Supporters can shop from over 500 products without ever leaving the couch — and don't forget about free shipping to home for orders over \$99.

Payment Options

As one of the first fundraising companies to offer a Text-to-Pay option, we've perfected this no-contact, no-money-handling, credit card payment support. When supporters use our shoppable ECatalogs or shop by category, their experience is worry-free with secure and encrypted checkout.

Contact-Free Delivery Options

We've got several options for NO-CONTACT delivery. Whether to the supporter's home, student's home or a drive-thru pickup, we've got a solution. PLUS, we provide your group with flexible option to turn ship-to-school orders ON/OFF.

Remember! Delivery method does not need to be decided today and can be adjusted.

However, you should reserve your spot as soon as possible.
