UNIVERSITY
OF MANITOBA

Faculty of
Medicine

Reception and Light Lunch on
the Concourse 1:00 P.M.

The Henry G. Friesen International Prize in Health Research was established in recognition of Dr. Friesen's distinguished leadership, vision and innovative contributions to health research and health research policy. The award, announced each spring, supports an annual fall lecture or series of lectures by a worthy and accomplished speaker of international stature on topics related to the advancement of health research and its evolving contributions to society. The lecture endeavours to reach the broadest possible audience at major centres across Canada. The Prize provides a significant cash award and covers the travel and hospitality costs of the Honouree. The Prize is a joint project of Friends of CIHR with the Canadian Academy of Health Sciences and financed through a fund established for that purpose. Broadcast partner is CBC Radio One.
