## Creating Colors For The World

## 1. Product introduction

 Our Iron Oxide is an important inorganic color pigment as it has stable chemical properties, high hiding and strong tinting power, it also has good dispersibility and excellent light and weather resistance. It is widely used in paints, coatings, building materials, inks, plastics, ceramics, paper, leather among other industries.

Style	Original Color	1:10 ZnO Show Color	5% In Grey Cement	5% In White Cement
Iron Oxide Red F110				
Iron Oxide Red Y101				
Iron Oxide Red 110B				
Iron Oxide Red F120				
Iron Oxide Red 130S				
Iron Oxide Red 130R				
Iron Oxide Red 130A				
Iron Oxide Red 190				
Iron Oxide Red 185
