LOVE YOUR LIVER

# You need your liver. Your liver needs you.

Your liver is fundamental to life, carrying out over 500 vital functions every day such as:

- **Fighting infection and disease**
- **Removing toxins (including alcohol)**
- **Cleaning the blood and regulating amino acids**
- **Processing food**
- **Controlling the amount of cholesterol in the body**
- **Balancing hormones**
- **Storing vitamins and minerals.**

The liver is the master of your immune system and it is central to your wellbeing. Modern living has taken a heavy toll...

In tests we discovered 89% of people had early signs of liver disease, high cholesterol and fatty livers. This figure was 60% just eight years ago. Non Alcoholic Fatty Liver Disease (NAFLD), is now the fourth biggest cause of death in the world.

As the British Liver Trust says “90% of liver disease is preventable, and if liver disease is found early, damage can often be reversed.”

We're all at risk of liver disease, which is why it's so important you look after yours. That's why we created de-liver-ance®.

# A breakthrough in liver health.

**de-liver-ance®** is the result of twenty years of research to create an all-natural elixir to promote optimal liver health. It works by stimulating the liver's natural processes.

**de-liver-ance®** has been shown to improve immunity, increase mental clarity, help with sleep, benefit the skin, boost the metabolism and minimise the effects of alcohol.

**de-liver-ance®** helps to reduce cholesterol levels by up to 30% and fatty liver levels by up to 50%.

You simply drink the small bottle, followed by a large glass of water, and it starts working within minutes.

# Nature at work.

Until the last few generations we took all of our nutrients from the natural world. Nowadays much of what our bodies absorb comes from synthetic compounds. Take pharmaceuticals. They benefit us, but their synthetic makeup can also cause unwanted side effects. That's why we ensured de-liver-ance is 100% natural.

Our unique formula called Rizasalutem™ increases the speed of liver detoxification, and leads to liver regeneration.

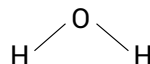

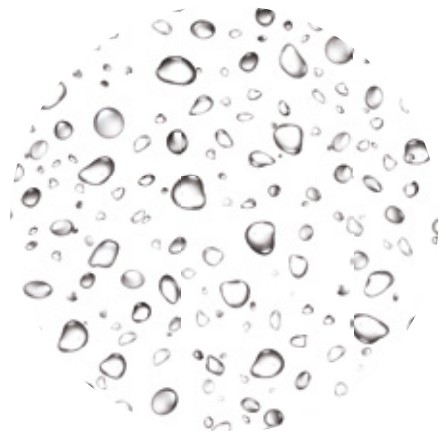

We blend the perfect formula of botanicals using nanotechnology which ensures that you get the right amount of absorption and bioavailability within your body.

Take a look at the natural ingredients you'll find in each bottle...

## Purified Spring Water

*Aqua*

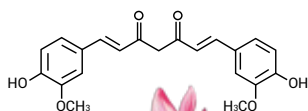

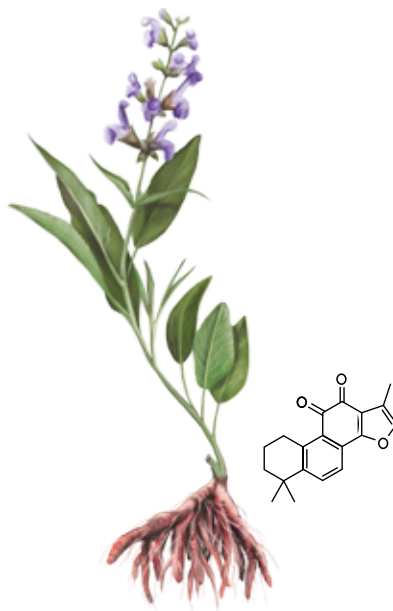

Water is the river on which our good health flows. Not drinking enough increases the blood's thickness, making it more difficult to filter. It also makes the work of your liver even harder. That's why water is such a vital ingredient, and why we recommend you take a large glass of water with each bottle of de-liver-ance®.

# Chinese Salvia

*Salvia miltiorrhiza / Dan Shen*

Chinese Salvia has been used for centuries to help treat a wide range of medical issues from high cholesterol to type 2 diabetes. It is commonly used for circulatory and heart problems.

# Turmeric

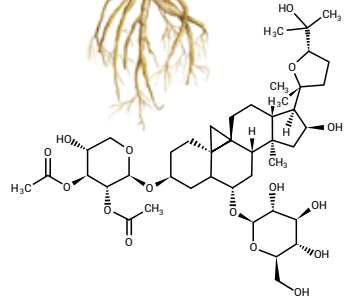

*Curcuma longa*

Turmeric is a spice from the turmeric plant that has been used in medicine for thousands of years. The root of turmeric is widely used for conditions such as inflammation, high cholesterol, liver disease, stress, and many more.

# Astragalus

*Astragalus membranaceus* - Huang Qi

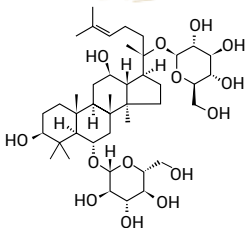

Used since ancient times in traditional medicines, Astragalus has been shown to improve the flow of energy of the body and help defend the body against diseases.

# Ginseng

*Panax ginseng* / Ren Shen

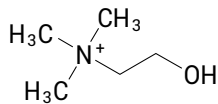

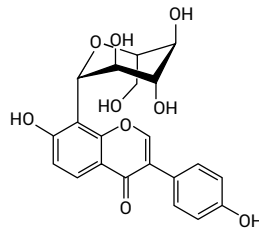

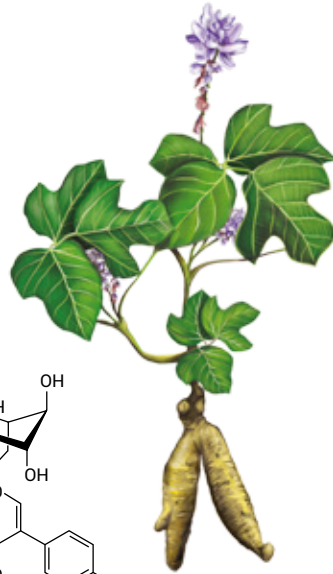

Ginseng has played a part in traditional herbal medicine for centuries. It is commonly used for its antioxidant and anti-inflammatory effects. It's also believed to help regulate blood sugar levels, strengthen the immune system, enhance brain function, and fight fatigue.

# Kudzu

*Pueraria lobata / Ge Gen*

Kudzu is a vine. It is often included in dishes for both medicinal purposes and flavour. It's been used in traditional medicine to deal with the effects of alcohol, and also for heart and circulatory problems, including high blood pressure.

# Choline

Inadequate Choline may result in fat and cholesterol build up in your liver. Choline helps remove fat from your liver, as well as improving muscle movement, healthy brain development, your nervous system and metabolism.

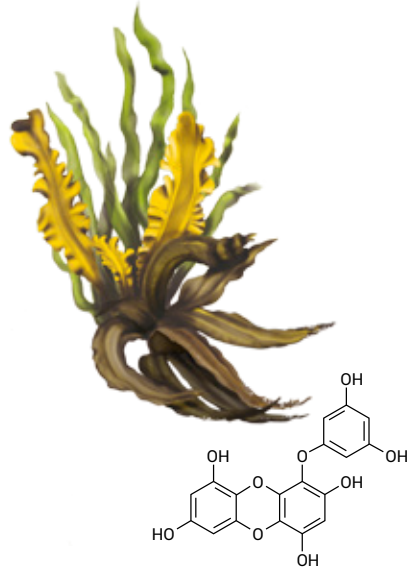

# Seanol

*Ecklonia cava*

Seanol is an extract of natural plant compounds originating from a seaweed that flourishes in the deep waters of the sea of Japan.

Seanol's powerful antioxidant, anti-inflammatory and anti-cancer properties have been shown to ease joint pain, inflammation, fatigue, benefit the nervous system and help maintain blood sugar levels.

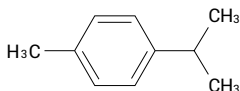

# Wormwood

*Artemisia capillaris* Thunb / Yin Chen

A plant belonging to the sunflower family, Wormwood has been used in traditional medicines for hundreds of years.

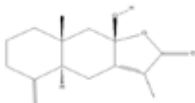

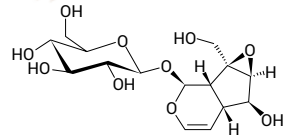

It has been associated with many health benefits, such as alleviating pain and inflammation, as well as offering antioxidant properties.

# Rehmannia

*Rehmannia glutinosa / Sheng Di Huang*

Rehmannia is a perennial plant, commonly combined with other herbs in Chinese and Japanese medicines. Its reputed benefits include aiding the immune system and lowering blood sugar levels.

# White Atractylodes

*Atractylodes ovata / Bai Zhu*

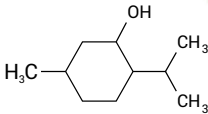

An aromatic herb found in traditional medicine, it has been used to treat physical and mental fatigue, improve digestion and help lower blood sugar levels..

# Peppermint

*Mentha piperita*

Pure organic peppermint oil from France is a major ingredient of de-liver-ance. It's a popular traditional remedy for a number of conditions including menstrual pains, nausea, depression-related anxiety, muscle and nerve pain, and indigestion.

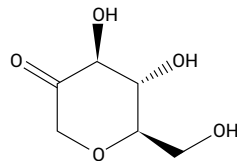

# Honey

*Mel*

Honey has provided proteins, vitamins and minerals for thousands of years. Cave drawings of beekeeping date from over 8,000 years ago.

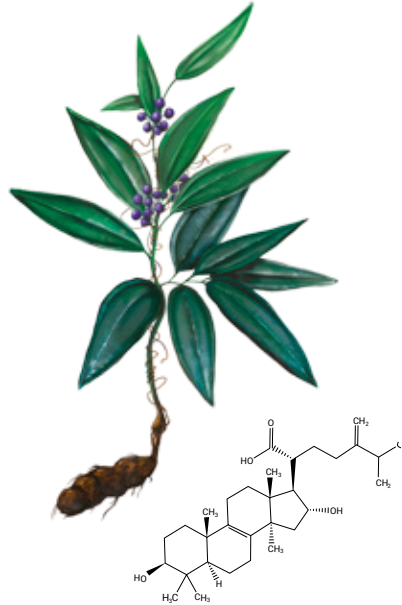

It has been shown to have antioxidant properties, as well as antibacterial and antifungal power. Micro-organisms cannot develop in honey, so sealed honey will not spoil, even after a thousand years.

# Poria

*Wolfiporia cocos / Fu Ling*

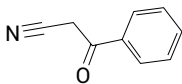

Poria is a mushroom used throughout Asia for its health benefits. It's commonly used to help the immune system. The type of Poria used in de-liver-ance is a trade secret.

# Solomon's Seal

*Polygonatum / Huang Jing*

Solomon's Seal is a truly versatile plant, used for thousands of years in herbal medicine. It's used to treat lung disorders, and reduce inflammation, as well as for skin issues.

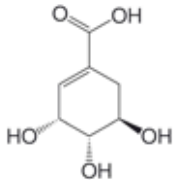

## Star Anise

*Illicium Verum*

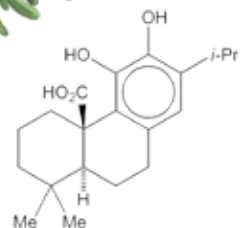

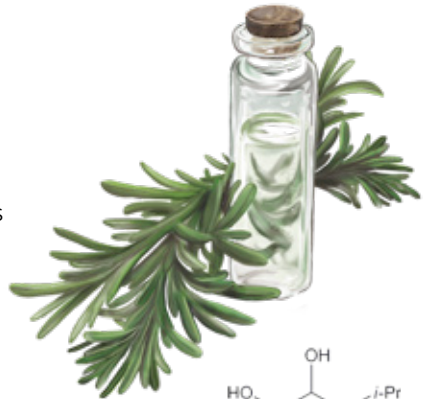

Star anise is an important oriental spice with a star-like shape. Originated in China it contains antifungal, antibacterial, antioxidant, and anti-inflammatory properties. Combined with a nutritious diet and healthy lifestyle, anise seed could improve several aspects of your health.

## Rosemary Oil

*Salvia Rosmarinus*

Rosemary is a fragrant evergreen herb native to the Mediterranean used for its potential health benefits due to its powerful antibacterial, antiviral, and antifungal properties. Consuming rosemary regularly can potentially help lower the risk of infection and help the immune system fight any infections that do occur.

# de-liver-ance<sup>®</sup> at work.

We're proud to say de-liver-ance<sup>®</sup> delivers.

**de-liver-ance supports my liver by helping me to physically, emotionally and spiritually be a stronger version of myself.**

“

*Kerri Beaumont*

Mother of 4, Business Owner & Marathon Runner

**I cannot believe that after just 60 days my liver fat has dropped by 40% and my liver enzymes by a further 45%.**

“

*Ronan Sayburn*

CEO at The Court of Master Sommeliers Europe

**de-liver-ance improved my immune system and fitness and it also gave me better mental clarity and better sleep.**

“

*Giles Collins*

Advertising Executive

**de-liver-ance will positively influence your entire state of well-being.**

“

*Dr Yadhu Rajalingam*

Senior Consultant in Anaesthesia & Intensive Care Medicine, NHS Royal Free Trust London

# The people behind de-liver-ance®.

Equilibrium Labs is a company whose mission is to improve the health and well-being of every person on the planet.

The Founder, Siggi Clavien, lost people in the past very close to him due to liver disease. He

has since made it his life's work to improve liver health for people across the globe. Siggi and his team's knowledge and expertise in Biotechnology along with his passion for traditional herbal medicine, has helped to create the perfect blend of plants to improve liver health and overall well-being.

20 years of effort can now be found in each bottle of de-liver-ance®.
