NEW SIT AND PLAY OFFICE CHAIR

Designed by the world renowned Alegre, HU1.0 was Inspired by nature, the connection of two shapes; one rigid and one flexible, results in a light and versatile product, with no noticeable mechanisms. Less is more is the design philosophy behind this iconic chair which, through its lines and materials, creates an ergonomic and elegant structure. Its shape is what gives it its function.

SIMPLICITY AND DYNAMISM

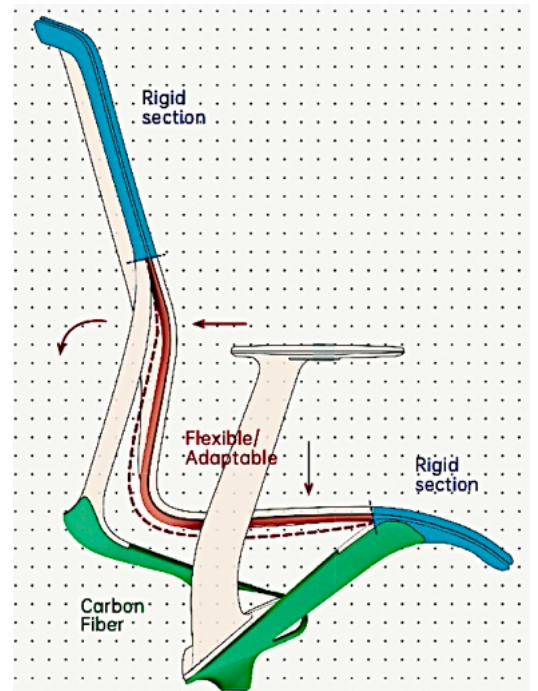

In a world where everything changes rapidly, HU1.0 can blend into every environment freely. HU1.0 provides a new experience where users can immediately experience the comfort of floating in daily life just by sitting down. Its continuous lines combined with the integrated mechanism push HU1.0 to the forefront of technology.

The chair has a striking, organic-looking architecture that supports dynamic sitting with its special design and thus promotes well-being at the workplace.
