A TASK CHAIR WITH COOL MOVES

Chic's adaptive design blends a sleek modern aesthetic with key ergonomic features that provide essential support to the sacrum while allowing the spine to follow a natural "S shape" line. The Range of motion is easy with Chic's Flex-Adjust frame that combines sleek minimalist style with industry-leading design to deliver a seamless experience between the Chic, chair and the user.

Breathable mesh keeps things cool while providing added comfort. The durable multilayer foam seat and adjustable armrests provide additional key elements of comfort, while fine tuning it's height adjustment and seat sliding features to enhance user experience.
