PATIENT RECLINER

VALUE AND MULTI-FUNCTIONALITY

The Senna mobile healthcare recliner Features a patented unitized mechanism which harmonizes motion of the back, foot rest for smooth, full-body movement. Senna features a 500 Lbs. weight capacity, full flatbed sleep position. With it's foldable patient transfer arm and mobile retractable footrest, the Senna Series recliner is designed for use in various clinical areas.

Engineered from the ground up with cleanability in mind, its removable back and lift up seat, along with the absence of entrapment areas make it a strong asset in infection control.
