# The Quick Advantage

## Ships QUICKLY, Assembles FAST

NorthPoint Cabinetry offers a **quick** advantage for you and your customer by making it fast and easy to design, order, ship & assemble cabinets. **Why does this matter?** With a reduction in time and labor, you can complete more jobs and see significant savings.

Some specific ways the NorthPoint Cabinetry Quick Advantage can save you time & money:

- **Quick to Design**

Our cabinets are available in 2020 and ProKitchen software, making kitchen design fast and easy.

2020

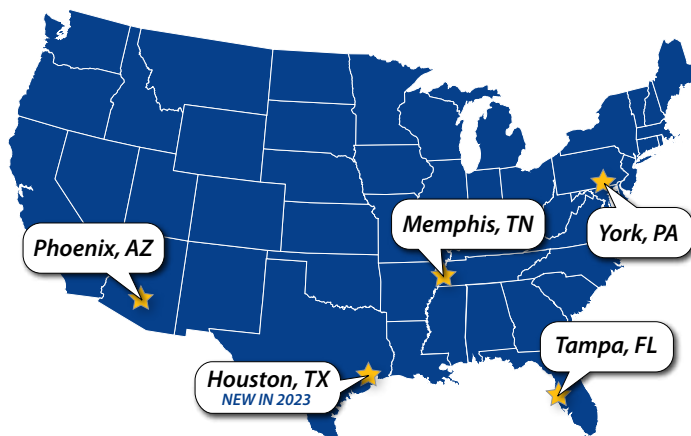

- **Quick to Order**

Place an order for your cabinets with our quoting tool, on our website at NorthPointCabinetry.com, or by contacting a live customer service agent.

- **Quick to Ship**

With 5 dedicated warehouses across the country, orders typically ship within 48 hours and arrive in 2–3 business days.

- **Quick to Assemble**

With our **QuickBuild**® cabinets, the average assembly time per cabinet is 8 minutes\*; you can build a medium sized kitchen in less than half a day.

\*Specialty cabinets may take longer than average to assemble.

# Quality Comes First

---

You can trust NorthPoint Cabinetry for your customers. Our cabinets and hardware have gone through rigorous third-party testing and meet KCMA standards. With quality details throughout and features your customer will appreciate, NorthPoint Cabinetry is built to last.

## It Starts with Quality Wood

Just as a healthy tree needs strong roots to thrive, a quality cabinet requires premium lumber at its core. The quality of wood is of utmost importance, so our cabinets feature solid wood construction.

## Structural Integrity

Meaningful yet hidden reinforcements — like solid wood corner blocks and strategically placed pocket screws — help reinforce the structural integrity of the cabinet. Take comfort that these well-constructed cabinets will stand the test of time.

## Thoughtful Craftsmanship

These cleverly designed cabinets boast an innovative dovetail and hidden pocket screw construction that provides robust quality and quick, accurate assembly.

## Pretty on the Inside, Too

NorthPoint Cabinetry features a clean and beautifully finished birch interior that enhances the cabinet's luxurious, high-quality appeal.

## Premium Drawer Boxes

Dovetail joinery is the hallmark of high-quality drawer boxes. The UV finish of the drawer boxes coupled with the dovetail construction, and smooth concealed slides are synonymous with quality furniture.

## Hardworking Hardware

Our cabinets feature discreet compact hinges and concealed undermount slides. The hinges and slides have been third-party tested and exceed industry standards. The Premier collection (shown) features full extension slides allowing for easy access and use of the whole drawer.

## Sturdy Shelves

NorthPoint Cabinetry shelves are constructed from an impressive  $\frac{3}{4}$ " thick veneered plywood, preventing sagging over time under the weight of normal use. Shelf height is adjustable, so the homeowner can optimize storage space.

# Expert Finishing

---

Count on consistent, high-quality finishing. Our state-of-the-art manufacturing facility utilizes a multi-step professional finishing process. This meticulous process maintains a high degree of color and application accuracy from cabinet to cabinet, ensuring a beautiful run of cabinets when installed.

Our cabinets and accessories feature water-based ultraviolet (UV) finishes. Water-based UV finishes emit low Volatile Organic Compounds (VOCs) and are environmentally responsible. UV finishing uses light instead of heat for curing, and the benefits include no environmental pollutants or solvents to evaporate, increased chemical resistance, and durability.

## *Premium Multi-Step Finishing Process*

1. The finest wood components are sanded with precision
2. A balanced base coat is applied to ensure a consistent, quality finish
3. First-stage ultraviolet (UV) curing process occurs
4. The wood is finely sanded and vacuumed
5. A tinted primer is applied as a foundation for our superior finish
6. Second stage UV curing
7. The wood is finely sanded and vacuumed
8. The solid paint layer is evenly applied
9. Third stage UV curing
10. The wood is finely sanded and vacuumed
11. First layer of water-based clear coat is applied
12. The components go through the dryer to prepare for final processing
13. The wood is finely sanded and vacuumed
14. Second layer of water-based clear coat is applied
15. The components go through the dryer once again
16. Final sanding for a smooth surface and vacuuming for a thorough cleaning
17. A final layer of topcoat is evenly applied
18. Oven curing for a catalyzed hardened finish
19. Visual inspection with a color consistency examination performed

*The process for stained products varies slightly from the above steps.*

# What are **QuickBuild**<sup>®</sup> Cabinets?

## **Dovetail + Pocket Screws = QuickBuild**<sup>®</sup>

Basic assembly of our cabinets is as simple as sliding the panels together and securing with pocket screws. You don't need extra fasteners to hold the panels in place, and conveniently placed pocket screws will reduce the average time you spend on each cabinet.

### **How fast can you build a cabinet?**

One of our cabinets takes about 8 minutes\* to assemble (many do it in 4). You can build a kitchen or bathroom in record time!

\*Specialty cabinets may take longer than average to assemble.
